SUMMARY SECTION

PMC Core Fixed Income Fund

Investment Objective. The PMC Core Fixed Income Fund's (the "Core Fixed Income Fund") investment objective is to provide current income consistent with low volatility of principal.

Fees and Expenses of the Fund. This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees

(fees paid directly from your investment)

None

Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

Management Fees	0.80%
Distribution (12b-1) Fees	0.25%
Other Expenses	0.60%
Acquired Fund Fees and Expenses ⁽¹⁾	0.01%
Total Annual Fund Operating Expenses	1.66%
Less: Fee Waiver/Expense Reimbursements	(0.65)%
Total Annual Fund Operating Expenses After Fee Waiver/Expense Reimbursement ⁽²⁾	1.01%

⁽¹⁾ Please note that the Total Annual Fund Operating Expenses in the table above do not correlate to the Ratio of Expenses to Average Net Assets found within the "Financial Highlights" section of this prospectus.

⁽²⁾ Pursuant to an operating expense limitation agreement between Envestnet Asset Management, Inc. ("the Adviser") and the Fund, the Adviser has agreed to waive its fees and/or reimburse expenses of the Fund to ensure that Total Annual Fund Operating Expenses (exclusive of Acquired Fund Fees and Expenses) do not exceed 1.00% of the Fund's average net assets through September 28, 2010, subject thereafter to annual re-approval of the agreement by the Trust's Board of Trustees (the "Board of Trustees"). This operating expense limitation agreement can only be terminated by, or with the consent of, the Board of Trustees. The Adviser is permitted to seek reimbursement from the Fund, subject to limitations, for fees it waived and Fund expenses it paid.

Example. This Example is intended to help you compare the costs of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

<u>One Year</u>	<u>Three Years</u>	<u>Five Years</u>	<u>Ten Years</u>
\$103	\$322	\$558	\$1,236

Portfolio Turnover. The Fund pays transaction costs, such as commissions, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, above, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 403% of the average value of its portfolio.

Principal Investment Strategies. Under normal market conditions, the Fund will invest at least 80% of its net assets (plus any borrowings for investment purposes) in fixed income securities that are rated investment grade or better (i.e., securities rated in the top four ratings categories by independent rating organizations

such as Standard & Poor's Ratings Group ("S&P") and Moody's Investors Service, Inc. ("Moody's") or another nationally recognized statistical rating organization ("NRSRO"), or determined to be of comparable quality by the Adviser or sub-adviser if the security is unrated). In addition, the Fund may invest up to 20% of its net assets, measured at the time of purchase, in high-yield debt securities that are rated BB+ or lower by S&P or Ba1 or lower by Moody's, or if unrated or split rated, securities deemed by the Adviser or sub-adviser to be of comparable quality). Such securities are considered to be below "investment grade" and are also known as "junk bonds." The lowest rating for any high-yield debt security in which the Fund may invest is CCC+. The Fund may invest in fixed income securities with a range of maturities, from short-term obligations carrying maturities of less than one year to long-term obligations carrying maturities of more than 20 years. It is expected that the weighted average maturity of the securities in the Fund will closely approximate the weighted average maturity of the Barclays Capital U.S. Aggregate Bond Index.

The Fund intends to invest in the following types of fixed income securities:

- U.S. Government and Agency Obligations
- mortgage-backed securities
- U.S. and foreign corporate debt
- obligations of international agencies or supranational entities
- when-issued securities
- custodial receipts
- emerging markets debt
- U.S. Treasury obligations and other "stripped securities"
- asset-backed securities
- municipal securities
- zero-coupon, pay-in-kind or deferred-payment securities
- delayed-delivery securities
- high-yield debt securities
- convertible securities

The Fund may invest up to 20% of its net assets in fixed income securities issued by foreign corporations and foreign governments, including corporations and governments in emerging markets, that are denominated in a currency other than the U.S. dollar. The foreign fixed income securities in which the Fund invests may have maturities of any length, and may be investment grade, non-investment grade or unrated. The Fund may also engage in securities lending representing up to one-third of the value of its total assets to earn income. In addition to direct investments in fixed income securities, at any time the Fund may seek to achieve its investment objective by allocating up to 100% of its assets among shares of different exchange-traded funds ("ETFs") that invest in fixed income securities that are rated investment grade or better by Moody's, S&P or another NRSRO.

The Manager of Managers Approach. The Adviser is responsible for developing, constructing and monitoring the asset allocation and portfolio strategy for the Fund. The Adviser believes that an investment's reward and risk characteristics can be enhanced by employing multiple sub-advisory firms, with complementary styles and approaches, who manage distinct segments of a market, asset class or investment style for the Fund. In managing the Fund, the Fund's sub-advisers generally rely on detailed proprietary research. The sub-advisers focus on the sectors and securities they believe are undervalued relative to the market. The Fund's sub-advisers will trade the Fund's portfolio securities actively, and may experience a high portfolio turnover rate. In selecting individual securities for investment, the Fund's sub-advisers typically:

- use in-depth fundamental research to identify sectors and securities for investment by the Fund and to analyze risk;
- exploit inefficiencies in the valuation of risk and reward;
- look to capitalize on rapidly shifting market risks and dynamics caused by economic and technical factors; and
- consider the liquidity of securities and the portfolio overall as an important factor in portfolio construction.

The Fund's sub-advisers generally sell securities in order to take advantage of investments in other securities offering what the sub-adviser believes is the potential for more attractive current income or capital gain or both.

Principal Risks. Losing all or a portion of your investment is a risk of investing in the Fund. The following additional risks could affect the value of your investment:

- *Management Risk.* Risk that the Adviser's investment strategies for the Funds, including the "manager of managers" approach described above, may not result in an increase in the value of your investment or in overall performance equal to other investments.
- *General Market Risk.* Risk that the value of the Fund's shares will fluctuate based on the performance of the Fund's investments and other factors affecting the securities markets generally.
- *Securities Lending Risk.* The Fund may lend its portfolio securities to brokers, dealers and financial institutions under agreements which require that the loans be secured continuously by collateral, typically cash, which the Fund will invest during the term of the loan. The risk in lending portfolio securities, as with other extensions of credit, consists of potential default or insolvency of the borrower. In either of these cases, the Fund could experience delays in recovering securities or collateral or could lose all or part of the value of the loaned securities. The Fund also bears the risk that the value of investments made with collateral may decline.
- *When-Issued Securities Risk.* Risk that the price or yield obtained in a when-issued transaction may be less favorable than the price or yield available in the market when the securities delivery takes place, or that failure of a party to a transaction to consummate the trade may result in a loss to the Fund or missing an opportunity to obtain a price considered advantageous.
- *Foreign Securities and Currency Risk.* Risks relating to political, social and economic developments abroad and differences between U.S. and foreign regulatory requirements and market practices, including fluctuations in foreign currencies. Countries in emerging markets are generally more volatile and can have relatively unstable governments, social and legal systems that do not protect shareholders, economies based on only a few industries, and securities markets that trade a small number of issues.
- *ETF Risk.* Risk associated with bearing indirect fees and expenses charged by ETFs in which the Fund may invest in addition to its direct fees and expenses, as well as indirectly bearing the principal risks of those ETFs. Also, risk that the market price of the ETF's shares may trade at a discount to their net asset value or that an active trading market for an ETF's shares may not develop or be maintained.
- *High Portfolio Turnover Rate Risk.* A high portfolio turnover rate (100% or more) has the potential to result in increased brokerage transaction costs and the realization by the Fund and distribution to shareholders of a greater amount of capital gains than if the Fund had a low portfolio turnover rate. This may mean that you would be likely to have a higher tax liability. Distributions to shareholders of short-term capital gains are taxed as ordinary income under federal tax laws.
- *Debt Securities Risk.* Interest rates may go up resulting in a decrease in the value of the securities held by the Fund. Credit risk is the risk that an issuer will not make timely payments of principal and interest. There is also the risk that a bond issuer may "call," or repay, its high yielding bonds before their maturity dates. Debt securities subject to prepayment can offer less potential for gains during a declining interest rate environment and similar or greater potential for loss in a rising interest rate environment. Limited trading opportunities for certain fixed income securities may make it more difficult to sell or buy a security at a favorable price or time.
- *High-Yield Debt Securities Risk.* The fixed-income securities held by the Fund that are rated below investment grade are subject to additional risk factors such as increased possibility of default, illiquidity of the security, and changes in value based on public perception of the issuer. Such

securities are generally considered speculative because they present a greater risk of loss, including default, than higher quality debt securities.

- *Municipal Securities Risk.* The value of municipal securities may be adversely affected by local political and economic factors, by supply and demand factors or the creditworthiness of the issuer, or by the ability of the issuer or projects backing such securities to generate taxes or revenues. There is a risk that the interest on an otherwise tax-exempt municipal security may be subject to income tax.
- *Asset-Backed and Mortgage-Backed Securities Risk.* Asset-backed and mortgage-backed securities are subject to risk of prepayment. These types of securities may also decline in value because of mortgage foreclosures or defaults on the underlying obligations.
- *U.S. Government and U.S. Agency Obligations Risk.* The risk that entities that are not backed by the full faith and credit of the U.S. Government may default on a financial obligation. The value of these types of securities may also decline when market interest rates increase.

Performance. The Annual Returns bar chart demonstrates the risks of investing in the Fund by showing how the Fund’s average annual returns through December 31, 2008 compare with those of a broad measure of market performance. Remember, the Fund’s past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future.

Calendar Year Returns as of December 31

The Fund’s calendar year-to-date return as of September 30, 2009 was 11.35%. During the period shown in the bar chart, the best performance for a quarter was 4.94% (for the quarter ended December 31, 2008). The worst performance was -1.65% (for the quarter ended June 30, 2008).

Average Annual Total Returns

(for the Period Ended December 31, 2008)

	<u>One Year</u>	<u>Since Inception</u> <u>(September 28, 2007)</u>
PMC Core Fixed Income Fund		
Return Before Taxes	5.56%	7.17%
Return After Taxes on Distributions ⁽¹⁾	4.53%	6.06%
Return After Taxes on Distributions and Sale of Fund Shares ⁽¹⁾⁽²⁾	4.98%	5.94%
Barclays Capital Aggregate Bond Index (reflects no deduction for fees, expenses, or taxes)	5.24%	6.62%

⁽¹⁾ After-tax returns are calculated using the historically highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor’s tax situation and may differ from those shown, and after-tax returns are not relevant to investors who hold their Fund shares through tax-deferred arrangements such as 401(k) plans or individual retirement accounts.

⁽²⁾ The Return After Taxes on Distributions and Sale of Fund Shares may be higher than other return figures when a capital loss occurs upon the redemption of Fund shares.

Investment Adviser and Sub-Advisers. Envestnet Asset Management, Inc. is the Fund's investment adviser. Neuberger Berman Fixed Income LLC ("NBFI") and Schroder Investment Management North America Inc. ("Schroder") serve as the Fund's sub-advisers.

Portfolio Managers. Mr. Wesley Sparks, CFA, Head of U.S. Fixed Income of Schroder, has managed the Fund since 2007. Mr. Andrew Johnson, Managing Director and Board Member of NBFI, has managed the Fund since 2009.

Purchase and Sale of Fund Shares. You may conduct transactions by mail (PMC Core Fixed Income Fund, c/o U.S. Bancorp Fund Services, LLC, 615 East Michigan Street, 3rd Floor, Milwaukee, WI 53201-0701), or by telephone at (866) PMC-7338. Investors who wish to purchase or redeem Fund shares through a financial intermediary should contact the financial intermediary directly. The minimum initial amount of investment in the Fund and exchanges into the Fund from another fund in the PMC Funds family is \$2,500. Subsequent investments in the Fund for all types of accounts may be made with a minimum investment of \$50.

Tax Information. The Fund's distributions are taxable, and will be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account.

Payments to Broker-Dealers and Other Financial Intermediaries. If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your adviser or visit your financial intermediary's website for more information.

PMC Diversified Equity Fund

Investment Objective. The PMC Diversified Equity Fund’s investment objective is long-term capital appreciation.

Fees and Expenses of the Fund. This table describes the fees and expenses that you may pay if you buy and hold shares of the Fund.

Shareholder Fees

(fees paid directly from your investment)

None

Annual Fund Operating Expenses

(expenses that you pay each year as a percentage of the value of your investment)

Management Fees	0.95%
Distribution (12b-1) Fees	0.25%
Other Expenses ⁽¹⁾	15.65%
Total Annual Fund Operating Expenses	16.85%
Less: Fee Waiver/Expense Reimbursements	(15.45)%
Total Annual Fund Operating Expenses After Fee Waiver/Expense Reimbursement ⁽²⁾	1.40%

⁽¹⁾ Because the Fund is new, these expenses are based on estimated amounts for the Fund’s current fiscal year.

⁽²⁾ Pursuant to an operating expense limitation agreement between Envestnet Asset Management, Inc. (“the Adviser”) and the Fund, the Adviser has agreed to waive its fees and/or reimburse expenses of the Fund to ensure that Total Annual Fund Operating Expenses (exclusive of Acquired Fund Fees and Expenses) do not exceed 1.40% of the Fund’s average net assets through August 26, 2012, subject thereafter to annual re-approval of the agreement by the Trust’s Board of Trustees (the “Board of Trustees”). This operating expense limitation agreement can only be terminated by, or with the consent of, the Board of Trustees. The Adviser is permitted to seek reimbursement from the Fund, subject to limitations, for fees it waived and Fund expenses it paid.

Example. This Example is intended to help you compare the costs of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest \$10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund’s operating expenses remain the same. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

<u>One Year</u>	<u>Three Years</u>
\$143	\$443

Portfolio Turnover. The Fund pays transaction costs, such as commissions, when it buys and sells securities (or “turns over” its portfolio). A higher portfolio turnover rate may indicate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in annual fund operating expenses or in the Example, above, affect the Fund’s performance. During the most recent period ended August 31, 2009, the Fund’s portfolio turnover rate was 0.7% of the average value of its portfolio.

Principal Investment Strategies. Under normal market conditions, the Fund will invest at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities of U.S. companies and non-U.S. companies with varying market capitalizations.

To achieve its investment objective, the Fund will generally invest in common stocks and preferred stocks, convertible securities and other equity securities of U.S. and non-U.S. companies, including when-issued securities. The Fund may invest up to 50% of its net assets in foreign securities, including American Depositary Receipts (“ADRs”), European Depositary Receipts (“EDRs”) and Global Depositary Receipts (“GDRs”). The Fund may invest up to 10% of its net assets in the equity securities of companies located in countries considered to have emerging market economies. The Fund may also engage in securities lending representing up to one-third of the value of its total assets to earn income. In addition to direct investments in equity securities, At any time the Fund may seek to achieve its investment objective by allocating up to 100% of its assets among shares of different exchange-traded funds (“ETFs”) that invest in equity securities.

The Manager of Managers Approach. The Adviser is responsible for developing, constructing and monitoring the asset allocation and portfolio strategy for the Fund. The Adviser believes that an investment’s reward and risk characteristics can be enhanced by employing multiple sub-advisory firms, with complementary styles and approaches, who manage distinct segments of a market, asset class or investment style for the Fund. The Fund invests in issuers that the Fund’s sub-advisers believe offer the potential for capital growth. In identifying candidates for investment, the Fund’s sub-advisers may consider the issuer’s likelihood of above average earnings growth, the securities’ attractive relative valuation, the quality of the securities, and whether the issuer has any proprietary advantages. The Fund generally sells securities when the Fund’s sub-advisers believe they are fully priced or when significantly more attractive investment candidates become available. The Fund may invest in companies of any market-capitalization, and may invest in securities of domestic or foreign issuers. Because the Fund is designed to maintain a “core” or “blend” approach, the Adviser selects sub-advisers to manage the Fund’s portfolio of securities in such a way so as mitigate significant growth or value style biases at the Fund level. Individual sub-advisers may specialize in one or the other style, but it is expected that in concert the blend of the sub-advisers will exhibit a core style.

Principal Risks. Losing all or a portion of your investment is a risk of investing in the Fund. The following additional risks could affect the value of your investment:

- *New Fund Risk.* There can be no assurance that the Fund will grow to or maintain an economically viable size.
- *Management Risk.* Risk that the Adviser’s investment strategies for the Funds, including the “manager of managers” approach described above, may not result in an increase in the value of your investment or in overall performance equal to other investments.
- *General Market Risk.* Risk that the value of the Fund’s shares will fluctuate based on the performance of the Fund’s investments and other factors affecting the securities markets generally.
- *Securities Lending Risk.* The Fund may lend its portfolio securities to brokers, dealers and financial institutions under agreements which require that the loans be secured continuously by collateral, typically cash, which the Fund will investment during the term of the loan. The risk in lending portfolio securities, as with other extensions of credit, consists of potential default or insolvency of the borrower. In either of these cases, the Fund could experience delays in recovering securities or collateral or could lose all or part of the value of the loaned securities. The Fund also bears the risk that the value of investments made with collateral may decline.
- *When-Issued Securities Risk.* Risk that the price or yield obtained in a when-issued transaction may be less favorable than the price or yield available in the market when the securities delivery takes place, or that failure of a party to a transaction to consummate the trade may result in a loss to the Fund or missing an opportunity to obtain a price considered advantageous.
- *Foreign Securities and Currency Risk.* Risks relating to political, social and economic developments abroad and differences between U.S. and foreign regulatory requirements and market practices, including fluctuations in foreign currencies. Countries in emerging markets are generally more volatile and can have relatively unstable governments, social and legal systems that do not protect shareholders, economies based on only a few industries, and securities markets that trade a small number of issues.

- *Equity Market Risk.* Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change. Preferred stock is subject to the risk that the dividend on the stock may be changed or omitted by the issuer, and that participation in the growth of an issuer may be limited.
- *Large-Cap Company Risk.* Larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in consumer tastes or innovative smaller competitors. Also, large-cap companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion.
- *Mid-Cap, Small-Cap and Micro-Cap Company Risk.* The risk that the securities of mid-cap, small-cap and micro-cap companies may be more volatile and less liquid than the securities of large-cap companies.
- *ETF Risk.* Risk associated with bearing indirect fees and expenses charged by ETFs in which the Fund may invest in addition to its direct fees and expenses, as well as indirectly bearing the principal risks of those ETFs. Also, risk that the market price of the ETF's shares may trade at a discount to their net asset value or that an active trading market for an ETF's shares may not develop or be maintained.

Performance. The Fund has been in operation for less than a full calendar year; as a result, there is no performance information available at this time.

Investment Adviser and Sub-Advisers. Investnet Asset Management, Inc. is the Fund's investment adviser. Delaware Management Company ("Delaware Management"), Loomis, Sayles & Company, L.P. ("Loomis Sayles"), Mellon Capital Management Corporation ("Mellon Capital") and Neuberger Berman Management, LLC ("Neuberger") serve as the Fund's sub-advisers.

Portfolio Managers. Francis X. Morris, Michael S. Morris, CFA, Christopher S. Adams, CFA, and Donald G. Padilla, CFA, serve as the co-Portfolio Managers for the segment of the Fund's assets managed by Delaware Management. Warren N. Koontz, CFA, CIC, Arthur Barry, CFA, and James L. Carroll, CFA, are the co-Portfolio Managers for the segment of the Fund's assets managed by Loomis Sayles. Ron Gala, CFA, serves as the Portfolio Manager for the segment of the Fund's assets managed by Mellon Capital. Benjamin Segal, CFA, and Conrad A. Saldanha, CFA, serve as co-Portfolio Managers for the segment of the Fund's assets managed by Neuberger.

Purchase and Sale of Fund Shares. You may conduct transactions by mail (PMC Diversified Equity Fund, c/o U.S. Bancorp Fund Services, LLC, 615 East Michigan Street, 3rd Floor, Milwaukee, WI 53201-0701), or by telephone at (866) PMC-7338. Investors who wish to purchase or redeem Fund shares through a financial intermediary should contact the financial intermediary directly. The minimum initial amount of investment in the Fund and exchanges into the Fund from another fund in the PMC Funds family is \$2,500. Subsequent investments in the Fund for all types of accounts may be made with a minimum investment of \$50.

Tax Information. The Fund's distributions are taxable, and will be taxed as ordinary income or capital gains, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an individual retirement account.

Payments to Broker-Dealers and Other Financial Intermediaries. If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend the Fund over another investment. Ask your adviser or visit your financial intermediary's website for more information.

Investment Strategies, Related Risks and Disclosure of Portfolio Holdings

PMC Core Fixed Income Fund

Investment Objective. The Fund's investment objective of providing current income consistent with low volatility of principal, as well as the principal investment strategies discussed below, is non-fundamental and may be changed without the approval of the Fund's shareholders upon 30 days' written notice to shareholders. However, the Fund will not change its investment policy of investing at least 80% of its net assets according to the investment strategies described below without first providing shareholders with at least 60 days' prior written notice.

Principal Investment Strategies. Under normal market conditions, the Fund will invest at least 80% of its net assets (plus any borrowings for investment purposes) in fixed income securities. The Fund will primarily invest (at least 80% of its net assets, measured at the time of purchase) in fixed income securities that are rated investment grade or better (i.e., securities rated in the top four ratings categories by independent rating organizations such as S&P and Moody's or another NRSRO, or determined to be of comparable quality by the Adviser or sub-adviser if the security is unrated).

In addition, the Fund may invest up to 20% of its net assets, measured at the time of purchase, in high-yield debt securities that are rated BB+ or lower by S&P or Ba1 or lower by Moody's, or if unrated or split rated, securities deemed by the Adviser or sub-adviser to be of comparable quality). Such securities are considered to be below "investment grade" and are also known as "junk bonds." Generally, lower-rated securities pay higher yields than more highly rated securities to compensate investors for the higher risk.

The Fund intends to invest in the following types of fixed income securities:

- obligations issued by the U.S. Government and its agencies or instrumentalities;
- debt securities of domestic or foreign corporations;
- mortgage-backed securities;
- receipts involving U.S. Treasury obligations and other "stripped securities;"
- municipal securities of issuers located in all fifty states, the District of Columbia or other U.S. territories and possessions, consisting of municipal bonds, municipal notes, tax-exempt commercial paper and municipal lease obligations;
- obligations of international agencies or supranational entities;
- asset-backed securities;
- zero coupon, pay-in-kind or deferred payment securities;
- securities issued on a when-issued and a delayed-delivery basis;
- high-yield debt securities (junk bonds);
- custodial receipts;
- convertible securities; and
- emerging markets debt.

At any time the Fund may seek to achieve its investment objective by allocating up to 100% of its assets among shares of different ETFs that invest in fixed-income securities. Each ETF share represents an undivided ownership interest in the portfolio of stocks held by an ETF, which are investment companies that acquire and hold either shares of all of the companies that are represented by a particular index in the same proportion that is represented in the index itself or shares of a sampling of the companies that are represented by a particular index in a proportion meant to track the performance of the entire index.

The Fund may invest up to 20% of its net assets, measured at the time of purchase, in fixed income securities issued by foreign corporations and foreign governments that are denominated in a currency other than the U.S. dollar. The foreign fixed income securities in which the Fund invests may have maturities of any length, and may be investment grade, non-investment grade or unrated. The Fund may also engage in securities lending representing up to one-third of the value of its total assets to earn income.

PMC Diversified Equity Fund

Investment Objective. The Fund's investment objective of long-term growth of capital, as well as the principal investment strategies discussed below, are non-fundamental and may be changed without the approval of the Fund's shareholders upon 30 days' written notice to shareholders. However, the Fund will not change its investment policy of investing at least 80% of its net assets according to the investment strategies described below without first providing shareholders with at least 60 days' prior written notice.

Principal Investment Strategies. Under normal market conditions, the Fund will invest at least 80% of its net assets (plus any borrowings for investment purposes) in equity securities of U.S. companies and non-U.S. companies with varying market capitalizations.

To achieve its investment objective, the Fund will generally invest in common stocks and preferred stocks, convertible securities (including convertible preferred stock and when-issued securities) and other equity securities of U.S. and non-U.S. companies. The Fund may invest up to 50% of its net assets in foreign securities, including ADRs, EDRs and GDRs, which are certificates typically issued by a bank or trust company that represent one or more shares of a foreign stock, or a fraction of a share, and give their holders the right to obtain the securities issued by a foreign company that they represent. The Fund may invest up to 10% of its net assets in the equity securities of companies located in countries considered to have emerging market or developing economies. The Fund may also engage in securities lending representing up to one-third of the value of its total assets to earn income.

At any time the Fund may seek to achieve its investment objective by allocating up to 100% of its assets among shares of different ETFs that invest in equity securities. Each ETF share represents an undivided ownership interest in the portfolio of stocks held by an ETF, which are investment companies that acquire and hold either shares of all of the companies that are represented by a particular index in the same proportion that is represented in the index itself or shares of a sampling of the companies that are represented by a particular index in a proportion meant to track the performance of the entire index.

General Investment Policies of the Funds

Sub-Advisers. To achieve the investment objectives of the PMC Core Fixed Income Fund and the PMC Diversified Equity Fund (each a "Fund," collectively, the "Funds" or "PMC Funds"), the Adviser will utilize sub-advisers with expertise in various types of investment strategies using a "manager of managers" approach. The sub-advisers may use a variety of investment techniques to achieve the Funds' investment objectives. These techniques may change over time as new instruments and techniques are introduced or as a result of regulatory or market developments. The Adviser selects the sub-advisers for the Funds, subject to approval by the Board of Trustees, and allocates the assets of each Fund among its respective sub-advisers. The Adviser reviews a wide range of factors in evaluating each sub-adviser including, but not limited to, past investment performance during various market conditions, investment strategies and processes used, structures of portfolios and risk management procedures, reputation, experience and training of key personnel, correlation of results with other sub-advisers and assets under management.

Temporary or Cash Investments. Under normal market conditions, the Funds will stay fully invested according to their principal investment strategies as noted above. The Funds, however, may temporarily depart from their

principal investment strategies by making short-term investments in cash, cash equivalents, and high-quality, short-term debt securities and money market instruments for temporary defensive purposes in response to adverse market, economic or political conditions. This may result in the Funds not achieving their investment objective during that period.

For longer periods of time, the Funds may hold a substantial cash position. If the market advances during periods when the Funds are holding a large cash position, the Funds may not participate to the extent they would have if the Funds had been more fully invested. To the extent that the Funds use a money market fund for their cash position, there will be some duplication of expenses because the Funds would bear their pro rata portion of such money market fund's advisory fees and operational expenses.

Fund Expenses. Each Fund is responsible for its own operating expenses. Pursuant to an operating expense limitation agreement between the Adviser and the Funds, the Adviser has agreed to reduce its management fees and/or pay expenses of each Fund to ensure that the total amount of Fund operating expenses (exclusive generally of interest, leverage and tax expenses, brokerage commissions, extraordinary expenses and acquired fund fees and expenses) does not exceed 1.00% and 1.40% of the Fund's average net assets for the Core Fixed Income Fund and Diversified Equity Fund, respectively, for an initial three-year term beginning with each Fund's commencement of operations, and is subject to annual re-approval of the agreement by the Board of Trustees thereafter. Any reduction in advisory fees or payment of expenses made by the Adviser may be reimbursed by a Fund in subsequent fiscal years if the Adviser so requests. This reimbursement may be requested if the aggregate amount actually paid by the applicable Fund toward operating expenses for such fiscal year (taking into account the reimbursement) does not exceed the applicable limitation on Fund expenses. The Adviser is permitted to be reimbursed for management fee reductions and/or expense payments made in the prior three fiscal years. Any such reimbursement will be reviewed and approved by the Board of Trustees. A Fund must pay its current ordinary operating expenses before the Adviser is entitled to any reimbursement of management fees and/or expenses. In addition, any such reimbursement from a Fund to the Adviser will be subject to the applicable limitation on that Fund's expenses. This operating expense limitation agreement can only be terminated by, or with the consent of, the Board of Trustees.

Principal Risks of Investing in the Funds

Before investing in the Funds, you should carefully consider your own investment goals, the amount of time you are willing to leave your money invested and the amount of risk you are willing to take. Remember, in addition to possibly not achieving your investment goals, you could lose money by investing in the Funds. The value of your investment in a Fund will go up and down with the prices of the securities in which the Fund invests. The principal risks of investing in each of the Funds are:

	Diversified Equity Fund	Core Fixed Income Fund

New Fund Risk	✓	-

Management Risk. The ability of the Funds to meet their investment objectives is directly related to the Adviser’s investment strategies for the Funds, including the “manager of managers” approach described in the “Summary Section” of this Prospectus. Your investment in a Fund varies with the effectiveness of the Adviser’s and sub-advisers’ research, analysis and asset allocation among portfolio securities. If the Adviser’s investment strategies do not produce the expected results, your investment could be diminished or even lost.

General Market Risk. The market value of a security may move up or down, sometimes rapidly and unpredictably. These fluctuations may cause a security to be worth less than the price originally paid for it, or less than it was worth at an earlier time. Market risk may affect a single issuer, industry or sector of the economy or the market as a whole. U.S. and international markets have experienced significant volatility since 2008. The fixed income markets have experienced substantially lower valuations, reduced liquidity, price volatility, credit downgrades, increased likelihood of default and valuation difficulties. Concerns have spread to domestic and international equity markets. In some cases, the stock prices of individual companies have been negatively impacted even though there may be little or no apparent degradation in the financial conditions or prospects of that company. As a result of this significant volatility, many of the following risks associated with an investment in the Funds may be increased. The U.S. government and certain foreign governments have taken numerous steps to alleviate these market concerns. However, there is no assurance that such actions will be successful. Continuing market problems may have adverse effects on the Funds.

Securities Lending Risk. To generate income, each Fund may lend securities representing up to one-third of the value of its total assets to broker-dealers, banks and other institutions under agreements which require that the loans be secured continuously by collateral, typically cash, which the Fund will investment during the term of the loan. The Fund will continue to have market risk and other risks connected with the investment of the cash collateral received in connection with the loan. The Fund bears the risk that the value of the investments made with collateral may decline. Securities lending is also subject to the risk that the other party to a securities lending agreement will default on its obligations. If the other party defaults, the Fund could experience delays in recovering securities or collateral or could lose all or portion of the value of the loaned securities.

When-Issued Securities Risk. The Funds may from time to time purchase securities on a “when-issued” basis. The price of such securities, which may be expressed in yield terms, is fixed at the time the commitment to purchase is made, but delivery and payment for the when-issued securities take place at a later date. When-issued and forward commitment transactions involve the risk that the price or yield obtained in a transaction (and therefore the value of a security) may be less favorable than the price or yield (and therefore the value of a security) available in the market when the securities delivery takes place. In addition, when a Fund engages in when-issued, delayed delivery and forward commitment transactions, it relies on the other party to consummate the trade. Failure of such party to do so may result in a Fund incurring a loss or missing an opportunity to obtain a price considered advantageous.

Foreign Securities and Currency Risk. To the extent that the Funds invest in securities of foreign companies, including, without limitation, ADRs, EDRs and GDRs, your investment is subject to foreign securities risk. These include risks relating to political, social and economic developments abroad and differences between U.S. and foreign regulatory requirements and market practices. Securities that are denominated in foreign currencies are subject to the further risk that the value of the foreign currency will fall in relation to the U.S. dollar and/or will be affected by volatile currency markets or actions of U.S. and foreign governments or central banks. In addition to developed markets, the Diversified Equity Fund may invest up to 10% of its total assets in emerging markets, which are markets of countries in the initial stages of industrialization and that generally have low per capita income. The Core Fixed Income Fund may also invest in emerging markets, provided that no more than 20% of its net assets, measured as the time of purchase, are invested in non-U.S. dollar denominated securities. In addition to the risks of foreign securities in general, countries in emerging markets are generally more volatile and can have relatively unstable governments, social and legal systems that do not protect shareholders, economies based on only a few industries, and securities markets that trade a small number of issues.

Equity Market Risk. Common stocks are susceptible to general stock market fluctuations and to volatile increases and decreases in value as market confidence in and perceptions of their issuers change. These investor perceptions are based on various and unpredictable factors including: expectations regarding government, economic, monetary and fiscal policies; inflation and interest rates; economic expansion or contraction; and global or regional political, economic and banking crises. If you held common stock of any given issuer, you would generally be exposed to greater risk than if you held preferred stocks and debt obligations of the issuer because common stockholders generally have inferior rights to receive payments from issuers in comparison with the rights of preferred stockholders, bondholders and other creditors of such issuers.

Preferred Stock Risk. A preferred stock is a blend of the characteristics of a bond and common stock. It can offer the higher yield of a bond and has priority over common stock in equity ownership, but does not have the seniority of a bond and, unlike common stock, its participation in the issuer’s growth may be limited. Preferred stock has preference over common stock in the receipt of dividends and in any residual assets after payment to creditors should the issuer be dissolved. Although the dividend on a preferred stock may be set at a fixed annual rate, in some circumstances it can be changed or omitted by the issuer.

Large-Cap Company Risk. Larger, more established companies may be unable to respond quickly to new competitive challenges such as changes in consumer tastes or innovative smaller competitors. Also, large-cap companies are sometimes unable to attain the high growth rates of successful, smaller companies, especially during extended periods of economic expansion.

Mid-Cap Company Risk. Generally, mid-cap companies may have more potential for growth than large-cap companies. Investing in mid-cap companies, however, may involve greater risk than investing in large-cap companies. Mid-cap companies may not have the management experience, financial resources, product diversification and competitive strengths of large-cap companies, and, therefore, their securities may be more volatile than the securities of larger, more established companies, making them less liquid than other

securities. Mid-cap company stocks may also be bought and sold less often and in smaller amounts than larger company stocks. Because of this, if a Fund wants to sell a large quantity of a mid-cap company's stock, it may have to sell at a lower price than the Adviser or a sub-adviser might prefer, or it may have to sell in smaller than desired quantities over a period of time.

Small and Micro-Cap Company Risk. Generally, small- and micro-cap and less seasoned companies have more potential for rapid growth. They also often involve greater risk than large- or mid-cap companies, and these risks are passed on to the Funds. These smaller-cap companies may not have the management experience, financial resources, product diversification and competitive strengths of large- or mid-cap companies, and, therefore, their securities tend to be more volatile than the securities of larger, more established companies, making them less liquid than other securities. Small- and micro-cap company stocks tend to be bought and sold less often and in smaller amounts than larger company stocks. Because of this, if a Fund wants to sell a large quantity of a smaller-cap company's stock, it may have to sell at a lower price than the Adviser or a sub-adviser might prefer, or it may have to sell in smaller than desired quantities over a period of time. An investment in a Fund that is subject to these risks may be more suitable for long-term investors who are willing to bear the risk of these fluctuations.

High Portfolio Turnover Rate Risk. High portfolio turnover rates could generate capital gains that must be distributed to shareholders as short-term capital gains taxed at ordinary income rates (currently as high as 35%) and could increase brokerage commission costs. To the extent that a Fund experiences an increase in brokerage commissions due to a higher portfolio turnover rate, the performance of the Fund could be negatively impacted by the increased expenses incurred by the Fund. Rapid portfolio turnover also exposes shareholders to a higher current realization of short-term capital gains taxed at ordinary income rates. The Core Fixed Income Fund experienced high portfolio turnover during its most recent fiscal year as the Fund's sub-advisers made several sector changes into and out of U.S. Treasury securities in order to take advantage of relative opportunities.

Debt Securities Risk. Debt securities held by the Core Fixed Income Fund are subject to interest rate risk, credit risk, call risk and liquidity risk, which are more fully described below.

High-Yield Debt Securities Risk. High-yield debt securities or "junk bonds" are debt securities rated below investment grade by a NRSRO. Although junk bonds generally pay higher rates of interest than higher-rated securities, they are subject to a greater risk of loss of income and principal. Junk bonds are subject to greater credit risk than higher-grade securities and have a higher risk of default. Companies issuing high-yield junk bonds are more likely to experience financial difficulties that may lead to a weakened capacity to make principal and interest payments than issuers of higher grade securities. Issuers of junk bonds are often highly leveraged and are more vulnerable to changes in the economy, such as a recession or rising interest rates, which may affect their ability to meet their interest or principal payment obligations.

Interest Rate Risk. Debt securities are subject to the risk that the securities could lose value because of interest rate changes. For example, bonds tend to decrease in value if interest rates rise. Debt securities with longer maturities sometimes offer higher yields, but are subject to greater price shifts as a result of interest rate changes than debt securities with shorter maturities.

Call Risk. During periods of declining interest rates, a bond issuer may "call"-or repay- its high yielding bonds before their maturity dates. The Core Fixed Income Fund would then be forced to invest the unanticipated proceeds at lower interest rates, resulting in a decline in its income.

Prepayment and Extension Risk. Many types of debt securities are subject to prepayment risk. Prepayment occurs when the issuer of a debt security can repay principal prior to the security's maturity. Debt securities subject to prepayment can offer less potential for gains during a declining interest rate environment and similar or greater potential for loss in a rising interest rate environment. In addition, the potential impact of

prepayment features on the price of a debt security can be difficult to predict and result in greater volatility. On the other hand, rising interest rates could cause prepayments of the obligations to decrease, extending the life of mortgage- and asset-backed securities with lower payment rates. This is known as extension risk and may increase the Fund's sensitivity to rising rates and its potential for price declines.

Credit Risk. Debt securities are generally subject to the risk that the issuer may be unable to make principal and interest payments when they are due. There is also the risk that the securities could lose value because of a loss of confidence in the ability of the borrower to pay back debt. Lower rated debt securities involve greater credit risk, including the possibility of default or bankruptcy.

Liquidity Risk. Trading opportunities are more limited for fixed income securities that have not received any credit ratings, have received ratings below investment grade or are not widely held. These features make it more difficult to sell or buy a security at a favorable price or time. Consequently, the Core Fixed Income Fund may have to accept a lower price to sell a security, sell other securities to raise cash or give up an investment opportunity, any of which could have a negative effect on its performance. Infrequent trading of securities may also lead to an increase in their price volatility. Liquidity risk also refers to the possibility that the Core Fixed Income Fund may not be able to sell a security or close out an investment contract when it wants to. If this happens, the Core Fixed Income Fund will be required to hold the security or keep the position open, and it could incur losses.

Municipal Securities Risk. An investment in the Core Fixed Income Fund may be affected by municipal securities risk. Local political and economic factors may adversely affect the value and liquidity of municipal securities held by the Core Fixed Income Fund. The value of municipal securities also may be affected more by supply and demand factors or the creditworthiness of the issuer than by market interest rates. Repayment of municipal securities depends on the ability of the issuer or projects backing such securities to generate taxes or revenues. There is a risk that the interest on an otherwise tax-exempt municipal security may be subject to income tax.

Asset-Backed and Mortgage-Backed Securities Risk. Asset-backed and mortgage-backed securities are subject to risk of prepayment. This is more likely to occur when interest rates fall because many borrowers refinance mortgages to take advantage of more favorable rates. Prepayments on mortgage-backed securities are also affected by other factors, such as the volume of home sales. The Core Fixed Income Fund's yield will be reduced if cash from prepaid securities is reinvested in securities with lower interest rates. The risk of prepayment may also decrease the value of mortgage-backed securities. Asset-backed securities may have a higher level of default and recovery risk than mortgage-backed securities. However, both of these types of securities may decline in value because of mortgage foreclosures or defaults on the underlying obligations.

U.S. Government and U.S. Agency Obligations Risk. U.S. Government obligations include securities issued or guaranteed as to principal and interest by the U.S. Government, its agencies or instrumentalities, such as the U.S. Treasury. Payment of principal and interest on U.S. Government obligations may be backed by the full faith and credit of the United States or may be backed solely by the issuing or guaranteeing agency or instrumentality itself. In the latter case, the investor must look principally to the agency or instrumentality issuing or guaranteeing the obligation for ultimate repayment, which agency or instrumentality may be privately owned. There can be no assurance that the U.S. Government would provide financial support to its agencies or instrumentalities (including government-sponsored enterprises) where it is not obligated to do so.

New Fund Risk. There can be no assurance that the Diversified Equity Fund will grow to or maintain an economically viable size, in which case the Board of Trustees, in consultation with the Adviser, may determine to liquidate the Fund. A liquidation can be initiated by the Board of Trustees without a shareholder vote and, while shareholder interests will be the paramount consideration, the timing of any liquidation may not be favorable to certain individual shareholders.

More detailed information about the Funds, their investment policies and risks can be found in the Funds' Statement of Additional Information ("SAI").

Portfolio Holdings Information

A description of the Funds' policies and procedures with respect to the disclosure of the Funds' portfolio holdings is available in the SAI. Currently, disclosure of the Funds' holdings is required to be made quarterly within 60 days of the end of each fiscal quarter in the annual and semi-annual reports to Fund shareholders and in the quarterly holdings report on Form N-Q. The annual and semi-annual reports are available by contacting PMC Funds, c/o U.S. Bancorp Fund Services, LLC, P.O. Box 701, Milwaukee, WI 53201-0701 or calling (866) PMC-7338.

Management of the Funds

The Adviser

The Funds have entered into an Investment Advisory Agreement ("Advisory Agreement") with Envestnet Asset Management, Inc. (the "Adviser"), a registered investment adviser, located at 35 East Wacker Drive, Suite 2400, Chicago, Illinois 60601, under which the Adviser manages the Funds' investments subject to the supervision of the Board of Trustees. The Adviser is a wealth management firm founded in 1999, and provides investment management services to investment advisers and institutional and individual investors. As of September 30, 2009, the Adviser managed approximately \$9.1 billion in assets. The Adviser is entitled to an annual fee from each Fund for its services. The table below illustrates the base fees paid to the Adviser, along with reduced fees paid on assets in excess of certain levels (breakpoints):

Advisory Fee (as a percentage of average daily net assets)			
Fund	\$2.5 billion or less	More than \$2.5 billion but less than \$5 billion	\$5 billion or more
Core Fixed Income Fund	0.800%	0.775%	0.750%

Fund	\$500 million or less	More than \$500 million but less than \$1 billion	\$1 billion or more
Diversified Equity Fund	0.950%	0.925%	0.900%

Subject to the general supervision of the Board of Trustees, the Adviser is responsible for managing the Funds in accordance with their investment objectives and policies using the "manager of managers" approach, and making recommendations with respect to the hiring, termination or replacement of sub-advisers. The Adviser also maintains related records for the Funds.

A discussion regarding the basis for the Board of Trustees' approval of the Advisory Agreement is included in the Funds' annual report to shareholders for the period ended August 31, 2009.

The Sub-Advisers and Portfolio Managers

The Adviser and the Trust, on behalf of the Funds, have entered into a sub-advisory agreement with each sub-adviser, and the Adviser compensates each Fund's sub-advisers out of the investment advisory fees it receives from that Fund. Each sub-adviser makes investment decisions for the assets it has been allocated to manage. The Adviser oversees the sub-advisers for compliance with each Fund's investment objective, policies, strategies and restrictions, and monitors each sub-adviser's adherence to its investment style. The

Board of Trustees supervises the Adviser and the sub-advisers, establishes policies that they must follow in their management activities, and oversees the hiring, termination and replacement of sub-advisers recommended by the Adviser. The Trust applied for, and the SEC has granted, an exemptive order with respect to the Funds that permits the Adviser, subject to certain conditions, to terminate existing sub-advisers or hire new sub-advisers for new or existing Funds, to materially amend the terms of particular agreements with sub-advisers or to continue the employment of existing sub-advisers after events that would otherwise cause an automatic termination of a sub-advisory agreement. This arrangement has been approved by the Board of Trustees and each Fund's initial shareholder. Consequently, under the exemptive order, the Adviser has the right to hire, terminate and replace sub-advisers when the Board of Trustees and the Adviser feel that a change would benefit a Fund. Within 90 days of retaining a new sub-adviser, shareholders of any affected Fund will receive notification of the change. The manager of managers structure enables the Funds to operate with greater efficiency and without incurring the expense and delays associated with obtaining shareholder approval of sub-advisory agreements. The structure does not permit investment advisory fees paid by the Funds to be increased or change the Adviser's obligations under the Advisory Agreement, including the Adviser's responsibility to monitor and oversee sub-advisory services furnished to the Funds, without shareholder approval. Furthermore, any sub-advisory agreements with affiliates of the Funds or the Adviser will require shareholder approval.

Not all of the sub-advisers listed for a particular Fund may be actively managing assets for that Fund at all times. Subject to the oversight of the Board of Trustees, the Adviser may temporarily allocate Fund assets away from a sub-adviser. Situations in which the Adviser may make such a determination include the level of assets in a particular Fund, changes in a sub-adviser's personnel or a sub-adviser's adherence to an investment strategy.

The following sub-advisers are responsible for the day-to-day portfolio management of the respective Funds:

Core Fixed Income Fund

Neuberger Berman Fixed Income LLC
Schroder Investment Management North America Inc.

Diversified Equity Fund

Delaware Management Company
Loomis, Sayles & Company, L.P.
Mellon Capital Management Corporation
Neuberger Berman Management LLC

The following provides additional information about each sub-adviser and the portfolio managers (each, a "Portfolio Manager") who are responsible for the day-to-day management of each Fund's portfolio. The SAI provides additional information about the Portfolio Managers' compensation, other accounts managed by the Portfolio Managers and their ownership of securities in the Funds.

Delaware Management Company

The Adviser has entered into a sub-advisory agreement with Delaware Management Company ("Delaware Management"), a series of Delaware Management Business Trust ("DMBT"), a Delaware Statutory Trust, to manage a portion of the Diversified Equity Fund's assets. Delaware Management is located at 2005 Market Street, Philadelphia, PA 19103. DMBT is a registered investment adviser and a majority-owned subsidiary of Delaware Management Holdings, Inc. Delaware Investments is the marketing name for Delaware Management Holdings, Inc. and its subsidiaries. As of August 31, 2009, Delaware Investments had more than \$136 billion in assets under management.

Francis X. Morris, Michael S. Morris, CFA, Christopher S. Adams, CFA, and Donald G. Padilla, CFA

Francis X. Morris, Michael S. Morris, CFA, Christopher S. Adams, CFA, and Donald G. Padilla, CFA, are the co-Portfolio Managers for the segment of the Diversified Equity Fund's assets managed by Delaware Management. Mr. Francis Morris joined Delaware Investments in 1997, and is currently the chief investment officer for the firm's Core Equity investments. He is also a member of the firm's asset allocation committee, which is responsible for building and managing multi-asset class portfolios. Mr. Francis Morris is a past president of the CFA Society of Philadelphia and is a member of the CFA Institute. In addition, he is a former officer of the National Association of Petroleum Investment Analysts. Mr. Michael Morris joined Delaware Investments in 1999, and is a Portfolio Manager on the firm's Core Equity team. He also performs analysis and research to support the portfolio management function. He is a member of the Bank and Financial Analysts Association. Mr. Adams joined Delaware Investments in 1995, and is a Portfolio Manager on the firm's Core Equity team. He also performs analysis and research to support the portfolio management function. Mr. Adams is a director and past president of the CFA Society of Philadelphia. Mr. Padilla joined Delaware Investments in 1994, and is a Portfolio Manager on the firm's Core Equity team. He also performs analysis and research to support the portfolio management function. He is a member of the CFA Society of Philadelphia.

Loomis, Sayles & Company, L.P.

The Adviser has entered into a sub-advisory agreement with Loomis, Sayles & Company, L.P. ("Loomis Sayles") to manage a portion of the Diversified Equity Fund's assets. Loomis Sayles is located at One Financial Center, Boston, MA 02111, and is a registered investment adviser. Loomis Sayles manages equity and fixed income strategies for institutional investors and mutual funds. As of September 30, 2009, Loomis Sayles had \$138.9 billion in assets under management.

Warren N. Koontz, CFA, CIC, Arthur Barry, CFA, and James L Carroll, CFA

Warren N. Koontz, CFA, CIC, Arthur Barry, CFA, and James L. Carroll, CFA, are the co-Portfolio Managers for the segment of the Diversified Equity Fund's assets managed by Loomis Sayles. Mr. Koontz joined Loomis Sayles in 1995, and is a Vice President and Portfolio Manager at the firm. Mr. Barry joined Loomis Sayles in May 2005, and is a Vice President and Portfolio Manager at the firm. Prior to joining Loomis Sayles, Mr. Barry was a Senior Vice President and Portfolio Manager at State Street Research and Management Company from November 2003 until January 2005. From April 2001 to May 2003, he was a Senior Portfolio Manager at INVESCO Capital Management. Mr. Carroll joined Loomis Sayles in 1996, and is a Vice President and Portfolio Manager at the firm.

Mellon Capital Management Corporation

The Adviser has entered into a sub-advisory agreement with Mellon Capital Management Corporation ("Mellon Capital") to manage a portion of the Diversified Equity Fund's assets. Mellon Capital is located at 50 Fremont Street, Suite 3900, San Francisco, CA 94105, and is a registered investment adviser. Mellon Capital manages institutional portfolios for defined benefit plans, defined contribution plans and other assets for corporations, public funds, endowments, foundations, health-care institutions, mutual funds and Taft-Hartley plans. As of September 30, 2009, Mellon Capital had \$169.7 billion in assets under management.

Ronald P. Gala, CFA

Ronald P. Gala is the Portfolio Manager for the segment of the Diversified Equity Fund's assets managed by Mellon Capital. Mr. Gala is a Director and Senior Portfolio Manager of Mellon Capital Management, and has 25 years of investment experience. Mr. Gala is a former Principal Officer of Mellon Equity Associates, LLP. Mr. Gala is a member and past president of the CFA Society of Pittsburgh and a member of the CFA Institute.

Neuberger Berman Management LLC

The Adviser has entered into a sub-advisory agreement with Neuberger Berman Management LLC ("Neuberger") to manage a portion of the Diversified Equity Fund's assets. Neuberger's office is located at

605 Third Avenue, New York, NY 10158, and is a registered investment adviser. Neuberger and its affiliates (collectively, “Neuberger Berman”) provide a broad range of global investment solutions, including equity, fixed income and alternatives, to institutions and individuals through customized separately managed accounts and funds. As of September 30, 2009, Neuberger Berman had approximately \$25.1 billion in assets under management.

Benjamin Segal, CFA and Conrad A. Saldanha, CFA

Benjamin Segal and Conrad A. Saldanha are the Portfolio Managers for the segment of the Diversified Equity Fund’s assets managed by Neuberger. Mr. Segal is a managing director and portfolio manager on the Global Equity team. He joined the Firm in 1998. Previously he was an assistant portfolio manager in global equities with Invesco GT Global in London, and before that was a management consultant with Bain & Company in South Africa, and an investment analyst with Lehman Brothers in Hong Kong. Mr. Segal started his investment career with Wardley James Capel in 1991. He graduated from Jesus College, Cambridge University with a B.A., and received a M.A. from the University of Pennsylvania and an M.B.A. from the Wharton School of Business.

Conrad A. Saldanha, CFA, Managing Director, joined the Firm in 2008. Mr. Saldanha is a Portfolio Manager for the Global Equity team and is responsible for Emerging Market equities. Prior to joining the Firm, he held several positions at GE Asset Management, Inc., most recently, vice president and co-portfolio manager on the Global Emerging Markets product, as well as the portfolio manager for the Indian Equity strategy. Previous positions include vice president for International and European equities, analyst for International, European and Emerging equities. Mr. Saldanha began his career at GE Capital’s Financial Management Program. He earned a B.Com from St. Xavier’s College, and an MBA from Virginia Polytechnic Institute.

Neuberger Berman Fixed Income LLC

The Adviser has entered into a sub-advisory agreement with Neuberger Berman Fixed Income LLC (“NBFI”) to manage a portion of the Core Fixed Income Fund’s assets. NBFI’s principal office is located at 190 South LaSalle Street, Suite 2400, Chicago, IL 60603, and is a registered investment adviser. NBFI and its affiliates (collectively, “Neuberger Berman”) provide a broad range of global investment solutions, including equity, fixed income and alternatives, to institutions and individuals through customized separately managed accounts and funds. As of September 30, 2009, Neuberger Berman Fixed Income LLC had approximately \$76 billion in assets under management.

Andrew A. Johnson

Andrew A. Johnson is the Portfolio Manager for the segment of the Core Fixed Income Fund’s assets managed by NBFI. Mr. Johnson serves as Managing Director and board member of NBFI, and joined the predecessor firm to NBFI in 1989. Mr. Johnson is the head of investment grade fixed income and lead portfolio manager for multiple core bond portfolios. Mr. Johnson is the Chief Investment Officer for investment grade strategies with responsibility for the overall direction of the investment process and research. Mr. Johnson is a member of the investment team setting overall portfolio strategy and serves on specialty investment grade teams, heading the Structured Products team. Prior to joining the firm, Mr. Johnson was a manager of financial planning and analysis at Illinois Bell. Previously, he had been a research & development engineer at Northrop Defense Systems Division. Mr. Johnson earned his BS and MS degrees in Electrical Engineering at the Illinois Institute of Technology and his MBA from the University of Chicago.

Schroder Investment Management North America Inc.

The Adviser has entered into a sub-advisory agreement with Schroder Investment Management North America Inc. (“Schroder”) to manage a portion of the Core Fixed Income Fund’s assets. Schroder is located at 875 Third Avenue, 22nd Floor, New York, NY 10022, and is a registered investment adviser. Schroder is controlled by Schroder U.S. Holdings Inc., and is an indirect wholly-owned subsidiary of Schroders plc, who, through its affiliated companies, is a global asset management group with over \$186.5 billion in assets under management, as of June 30, 2009. Schroder provides asset management products and services to clients in

the U.S. and Canada, including individual investors, investment companies and institutional clients. As of August 31, 2009, Schroder Investment Management North America Inc. had \$32.1 billion in assets under management.

Schroder uses a team approach to decisionmaking, in which a team of portfolio managers focuses on an area of market expertise rather than a specific set of portfolios.

Wesley Sparks, CFA

Wesley Sparks, CFA, is the Portfolio Manager primarily responsible for the segment of the Core Fixed Income Fund's assets managed by Schroder. Since September 2008, Mr. Sparks has been the Head of U.S. Fixed Income for Schroder, and for eight years he has been the Head of U.S. Credit Strategies for the firm. Mr. Sparks received a Bachelor of Arts Degree in Economics from Northwestern University and an MBA in Finance from the Wharton School at the University of Pennsylvania.

Shareholder Information

Share Price

The price of a Fund's shares is based on the Fund's net asset value ("NAV"). The NAV is calculated by dividing the value of a Fund's total assets, less its liabilities, by the number of its shares outstanding. In calculating the NAV, portfolio securities are valued using current market values or official closing prices, if available. The NAV is calculated at the close of regular trading of the New York Stock Exchange ("NYSE"), which is generally 4:00 p.m., Eastern time. The NAV will not be calculated on days that the NYSE is closed for trading.

Each security owned by a Fund that is listed on a securities exchange is valued at its last sale price on that exchange on the date as of which assets are valued. Where the security is listed on more than one exchange, a Fund will use the price on the exchange that the Fund generally considers to be the principal exchange on which the stock is traded. Portfolio securities listed on the NASDAQ Stock Market, Inc. ("NASDAQ") will be valued at the NASDAQ Official Closing Price, which may not necessarily represent the last sale price. If there has been no sale on such exchange or on NASDAQ on such day, the security is valued at the mean between the bid and asked prices on such day. When market quotations are not readily available, a security or other asset is valued at its fair value as determined under fair value pricing procedures approved by the Board of Trustees. These fair value pricing procedures will also be used to price a security when corporate events, events in the securities market and/or world events cause the Adviser to believe that a security's last sale price may not reflect its actual market value. The intended effect of using fair value pricing procedures is to ensure that the Funds are accurately priced. The Board of Trustees will regularly evaluate whether the Funds' fair value pricing procedures continue to be appropriate in light of the specific circumstances of each Fund and the quality of prices obtained through their application by the Trust's valuation committee.

When fair value pricing is employed, the prices of securities used by a Fund to calculate its NAV may differ from quoted or published prices for the same securities. Due to the subjective and variable nature of fair value pricing, it is possible that the fair value determined for a particular security may be materially different from the price of the security quoted or published by others or the value when trading resumes or realized upon its sale. Therefore, if a shareholder purchases or redeems Fund shares when a Fund holds securities priced at a fair value, the number of shares purchased or redeemed may be higher or lower than it would be if the Fund were using market value pricing.

In the case of foreign securities, the occurrence of certain events after the close of foreign markets, but prior to the time a Fund's NAV is calculated (such as a significant surge or decline in the U.S. or other markets) often will result in an adjustment to the trading prices of foreign securities when foreign markets open on the following business day. If such events occur, the Funds will value foreign securities at fair value, taking into

account such events, in calculating the NAV. In such cases, use of fair valuation can reduce an investor's ability to seek to profit by estimating a Fund's NAV in advance of the time the NAV is calculated. The Adviser anticipates that the Funds' portfolio holdings will be fair valued only if market quotations for those holdings are considered unreliable.

Investors may be charged a fee if they effect transactions through a broker or agent. The Funds have authorized one or more brokers or financial intermediaries ("Authorized Intermediary") to receive on their behalf purchase and redemption orders. Such Authorized Intermediaries may be authorized to designate other intermediaries to receive purchase and redemption orders on the Funds' behalf. In such cases, a Fund will be deemed to have received a purchase or redemption order when an Authorized Intermediary or, if applicable, a broker's authorized designee, receives the order. Customer orders will be priced at the applicable Fund's NAV next computed after the order is received by an Authorized Intermediary or its authorized designee.

How to Purchase Shares

Shares of the Funds are purchased at the next NAV calculated after your purchase order is received by the Funds, or by an Authorized Intermediary, as discussed below. The minimum initial investment in a Fund is \$2,500, with a minimum investment of \$50 for subsequent investments. Shareholders will be given at least 30 days' written notice of any increase in the minimum dollar amount of initial or subsequent investments. If you place an order for a Fund's shares through a financial institution in accordance with such financial institution's procedures, and such financial institution then transmits your order to the Transfer Agent in accordance with the Transfer Agent's instructions, your purchase will be processed at the applicable NAV next calculated after the Transfer Agent receives your order. The financial institution must promise to send to the Transfer Agent immediately available funds in the amount of the purchase price in accordance with the Transfer Agent's procedures. If payment is not received within the time specified, the Transfer Agent may rescind the transaction and the financial institution will be held liable for any resulting fees or losses.

In the case of Authorized Intermediaries that have made satisfactory payment or redemption arrangements with the Funds, orders will be processed at the applicable price next calculated after receipt by the Authorized Intermediary, consistent with applicable laws and regulations. Financial institutions, including Authorized Intermediaries, may set cut-off times for the receipt of orders that are earlier than the cut-off times established by the Funds. For more information about your financial institution's rules and procedures and whether your financial institution is an Authorized Intermediary, you should contact your financial institution directly.

All account applications ("Account Applications") to purchase Fund shares are subject to acceptance by the Funds and are not binding until so accepted. The Funds reserve the right to reject any purchase order if, in their discretion, it is in the Funds' best interest to do so. For example, a purchase order may be refused if it appears so large it would disrupt the management of a Fund. Purchases may also be rejected from persons believed to be "market timers," as described under the section entitled "Tools to Combat Frequent Transactions," below. A service fee, currently \$25, as well as any loss sustained by a Fund, will be deducted from a shareholder's account for any purchases that do not clear. The Funds and the Fund's transfer agent, U.S. Bancorp Fund Services, LLC (the "Transfer Agent") will not be responsible for any losses, liability, cost or expense resulting from rejecting any purchase order. Your order will not be accepted until the completed Account Application is received by the Funds or the Transfer Agent.

Purchase Requests Must be Received in Good Order

Your share price will be based on the next NAV per share calculated after the Transfer Agent or your Authorized Intermediary receives your purchase request in good order. "Good order" means that your purchase request includes:

- the name of the Fund;
- the dollar amount of shares to be purchased;
- your account application or investment stub; and
- a check payable to “PMC Funds.”

All purchase requests received in good order before the close of the NYSE (generally 4:00 p.m., Eastern time) will be processed on that same day. Purchase requests receive the next business day’s NAV per share.

Investing by Telephone. If you have completed the “Telephone Options - Purchase Authorization” section of the Account Application, you may purchase additional shares by telephoning the Funds toll free at (866) PMC-7338. This option allows investors to move money from their bank account to their Fund account upon request. Only bank accounts held at domestic institutions that are Automated Clearing House (“ACH”) members may be used for telephone transactions. The minimum telephone purchase amount is \$50. If your order is received prior to the close of the NYSE (generally 4:00 p.m., Eastern time), shares will be purchased in your account at the applicable price determined on the day your order is placed. During periods of high market activity, shareholders may encounter higher than usual call waiting times. Please allow sufficient time to place your telephone transaction.

Purchase by Mail. To purchase a Fund’s shares by mail, simply complete and sign the Account Application and mail it, along with a check made payable to “PMC Funds” to:

Regular Mail

PMC Funds
 c/o U.S. Bancorp Fund Services, LLC
 P.O. Box 701
 Milwaukee, WI 53201-0701

Overnight or Express Mail

PMC Funds
 c/o U.S. Bancorp Fund Services, LLC
 615 East Michigan Street, 3rd Floor
 Milwaukee, WI 53202

The Funds do not consider the U.S. Postal Service or other independent delivery services to be their agents. All purchase checks must be in U.S. dollars drawn on a domestic financial institution. The Funds will not accept payment in cash or money orders. The Funds also do not accept cashier’s checks in amounts of less than \$10,000. To prevent check fraud, the Funds will not accept third party checks, Treasury checks, credit card checks, traveler’s checks or starter checks for the purchase of shares. The Funds are unable to accept post-dated checks, post-dated on-line bill pay checks, or any conditional order or payment.

Purchase by Wire. If you are making your first investment in a Fund, before you wire funds the Transfer Agent must have a completed Account Application. You can mail or use an overnight service to deliver your Account Application to the Transfer Agent at the above address. Upon receipt of your completed Account Application, the Transfer Agent will establish an account for you. Once your account has been established, you may instruct your bank to send the wire. Prior to sending the wire, please call the Transfer Agent at (866) PMC-7338 to advise them of the wire and to ensure proper credit upon receipt. Your bank must include the name of the Fund, your name and your account number so that monies can be correctly applied. Your bank should transmit immediately available funds by wire to:

Wire to: U.S. Bank, N.A.
ABA Number: 075000022
Credit: U.S. Bancorp Fund Services, LLC
Account: 112-952-137
Further Credit: PMC Funds
(Name of Fund you are investing in)
(Shareholder Name/Account Registration)
(Shareholder Account Number)

Wired funds must be received prior to the close of the NYSE (generally 4:00 p.m., Eastern time) to be eligible for same day pricing. The Funds and U.S. Bank, N.A. are not responsible for the consequences of delays resulting from the banking or Federal Reserve wire system, or from incomplete wiring instructions.

Subsequent Investments. The minimum subsequent investment is \$50. Shareholders will be given at least 30 days' written notice of any increase in the minimum dollar amount of subsequent investments. You may add to your account at any time by purchasing shares by mail, by telephone or by wire. You must call to notify the Funds at (866) PMC-7338 before wiring. A remittance form, which is attached to your individual account statement, should accompany any investments made through the mail. All purchase requests must include your shareholder account number.

Automatic Investment Plan. For your convenience, the Funds offer an Automatic Investment Plan ("AIP"). Under the AIP, after your initial investment, you may authorize a Fund to withdraw automatically from your personal checking or savings account an amount that you wish to invest, which must be at least \$50 on a monthly basis. In order to participate in the AIP, your bank must be a member of the ACH network. If you wish to enroll in the AIP, complete the appropriate section in the Account Application. The Funds may terminate or modify this privilege at any time. You may terminate your participation in the AIP at any time by notifying the Transfer Agent five days prior to the effective date. A fee will be charged if your bank does not honor the AIP draft for any reason.

Anti-Money Laundering Program. Please note that the Funds have established an Anti-Money Laundering Compliance Program (the "Program") as required by the Uniting and Strengthening America by Providing Appropriate Tools Required to Intercept and Obstruct Terrorism Act of 2001 ("USA PATRIOT Act") and related anti-money laundering laws and regulations. In order to ensure compliance with these laws, the Account Application asks for, among other things, the following information for all "customers" seeking to open an "account" (as those terms are defined in rules adopted pursuant to the USA PATRIOT Act):

- full name;
- date of birth (individuals only);
- Social Security or taxpayer identification number;
- permanent street address (P.O. Box only is not acceptable); and
- accounts opened by entities, such as corporations, limited liability companies, partnerships or trusts, will require additional documentation.

Please note that if any information listed above is missing, your Account Application will be returned and your account will not be opened. In compliance with the USA PATRIOT Act and other applicable anti-money laundering laws and regulations, the Transfer Agent will verify the information on your application as part of the Program. The Funds reserve the right to request additional clarifying information and may close your account if such clarifying information is not received by the Funds within a reasonable time of the request or if the Funds cannot form a reasonable belief as to the true identity of a customer. If you require additional assistance when completing your application, please contact the Transfer Agent at (866) PMC-7338.

Householding. In an effort to decrease costs, the Funds intend to reduce the number of duplicate prospectuses and annual and semi-annual reports you receive by sending only one copy of each to those addresses shared by two or more accounts and to shareholders we reasonably believe are from the same family or household. Once implemented, if you would like to discontinue householding for your accounts, please call toll-free at (866) PMC-7338 to request individual copies of these documents. Once the Funds receive notice to stop householding, we will begin sending individual copies 30 days after receiving your request. This policy does not apply to account statements.

How to Redeem Shares

In general, orders to sell or “redeem” shares may be placed directly with the Funds through a broker-dealer or financial institution. However, if you originally purchased your shares through a broker-dealer or financial institution, your redemption order must be placed with the same institution in accordance with the procedures established by that institution. Your broker-dealer or financial institution is responsible for sending your order to the Transfer Agent and for crediting your account with the proceeds. You may redeem part or all of your investment in a Fund’s shares on any business day that the applicable Fund calculates its NAV. To redeem shares of a Fund, you must contact the Fund either by mail or by phone to place a redemption order. Your redemption request must be received in good order (as discussed under “Payment of Redemption Proceeds” below) prior to the close of the regular trading session of the NYSE (generally 4:00 p.m., Eastern time) in order to obtain that day’s closing NAV. Redemption requests received after the close of the NYSE will be treated as though received on the next business day.

Shareholders who have an IRA or other retirement plan must indicate on their redemption request whether or not to withhold federal income tax. Redemption requests failing to indicate an election not to have tax withheld will generally be subject to 10% withholding.

Payment of Redemption Proceeds. You may redeem your Fund shares at a price equal to the NAV next determined after the Transfer Agent receives your redemption request in good order. Your redemption request cannot be processed on days the NYSE is closed. All requests received in good order by the Funds before the close of the regular trading session of the NYSE (generally 4:00 p.m., Eastern time) will usually be sent on the next business day.

A redemption request will be deemed in “good order” if it includes:

- the shareholder’s name;
- the name of the Fund you are invested in;
- the account number;
- the share or dollar amount to be redeemed; and
- signatures by all shareholders on the account and signature guarantee(s), if applicable.

You may have a check sent to the address of record, proceeds may be wired to your pre-established bank account or funds may be sent via electronic funds transfer through the ACH network using the bank instructions previously established on your account. Redemption proceeds will typically be sent on the business day following your redemption. Wires are subject to a \$15 fee. There is no charge to have proceeds sent via ACH, however, funds are typically credited to your bank within two to three days after redemption. In all cases, proceeds will be processed within seven calendar days after the Funds receive your redemption request.

Wire Redemption. Wire transfers may be arranged to redeem shares. However, the Transfer Agent charges a fee, currently \$15, per wire redemption against your account on dollar specific trades, and from proceeds on complete redemptions and share-specific trades.

Before selling recently purchased shares, please note that if the Transfer Agent has not yet collected payment for the shares you are selling, it may delay sending the proceeds until the payment is collected, which may take up to 12 calendar days from the purchase date. Furthermore, there are certain times when you may be unable to sell Fund shares or receive proceeds. Specifically, the Funds may suspend the right to redeem shares or postpone the date of payment upon redemption for more than seven calendar days: (1) for any period during which the NYSE is closed (other than customary weekend or holiday closings) or trading on the NYSE is restricted; (2) for any period during which an emergency exists as a result of which disposal by a Fund of securities owned by it is not reasonably practicable or it is not reasonably practicable for a Fund to fairly determine the value of its net assets; or (3) for such other periods as the SEC may permit for the protection of shareholders.

Redemption proceeds will be sent to the address of record unless an alternate payment method has been selected. Signature guarantees can be obtained from banks and securities dealers, *but not from a notary public*. The Funds will not be responsible for interest lost on redemption amounts due to lost or misdirected mail. The Transfer Agent may require a signature guarantee for certain redemption requests. A signature guarantee assures that your signature is genuine and protects you from unauthorized account redemptions. A signature guarantee of each owner is required in the following situations:

- if ownership is changed on your account;
- when redemption proceeds are payable or sent to any person, address or bank account not on record;
- for written requests to wire redemption proceeds (if not previously authorized on the account)
- if a change of address request has been received by the Transfer Agent within the last 15 days;
- for all redemptions in excess of \$100,000 from any shareholder account; and
- when establishing or modifying certain services on an account.

In addition to the situations described above, the Funds and/or the Transfer Agent reserve the right to require a signature guarantee in other instances based on the circumstances relative to the particular situation.

Redemption by Mail. You can execute most redemptions by furnishing an unconditional written request to the Funds to redeem your shares at the current NAV. Redemption requests in writing should be sent to the Transfer Agent at:

Regular Mail

PMC Funds
c/o U.S. Bancorp Fund Services, LLC
P.O. Box 701
Milwaukee, WI 53201-0701

Overnight or Express Mail

PMC Funds
c/o U.S. Bancorp Fund Services, LLC
615 East Michigan Street, 3rd Floor
Milwaukee, WI 53202

The Funds do not consider the U.S. Postal Service or other independent delivery services to be their agents.

Telephone Redemption. If you have been authorized to perform telephone transactions (either by completing the required portion of your Account Application or by subsequent arrangement in writing with the Funds), you may redeem shares, in amounts of \$100,000 or less, by instructing the Funds by phone at (866) PMC-7338. A signature guarantee may be required of all shareholders in order to qualify for or to change telephone redemption privileges on an existing account. Telephone redemptions cannot be made if you notify the Transfer Agent of a change of address within 15 days before the redemption request. If you have a retirement account, you may not redeem shares by telephone. During periods of high market activity, shareholders may encounter higher than usual call waiting times. Please allow sufficient time to place your telephone transaction.

Note. Neither the Funds nor any of their service providers will be liable for any loss or expense in acting upon instructions that are reasonably believed to be genuine. To confirm that all telephone instructions are genuine, the Funds will use reasonable procedures, such as requesting:

- that you correctly state your Fund account number;
- the name in which your account is registered; or
- the Social Security or taxpayer identification number under which the account is registered.

Systematic Withdrawal Program. The Funds offer a systematic withdrawal plan (the “SWP”) whereby shareholders or their representatives may request a redemption in a specific dollar amount be sent to them monthly, quarterly or annually. Investors may choose to have a check sent to the address of record, or proceeds may be sent to a pre-designated bank account via the ACH network. To start this program, your account must have Fund shares with a value of at least \$10,000, and the minimum payment amount is \$50. This program may be terminated or modified by the Funds at any time. Any request to change or terminate your SWP should be communicated in writing or by telephone to the Transfer Agent no later than five days before the next scheduled withdrawal. A withdrawal under the SWP involves a redemption of Fund shares, and may result in a gain or loss for federal income tax purposes. In addition, if the amount withdrawn exceeds the distributions credited to your account, the account ultimately may be depleted. To establish the SWP, complete the SWP section of the Account Application. Please call (866) PMC-7338 for additional information regarding the SWP.

The Funds’ Right to Redeem an Account. The Funds reserve the right to redeem the shares of any shareholder whose account balance is less than \$1,000, other than as a result of a decline in the NAV of a Fund or for market reasons. The Funds will provide shareholders with written notice 30 days prior to redeeming the shareholder’s account.

Redemption-in-Kind. The Funds generally pay redemption proceeds in cash. However, under unusual conditions that make the payment of cash unwise (and for the protection of a Fund’s remaining shareholders), a Fund may pay all or part of a shareholder’s redemption proceeds in liquid securities with a market value equal to the redemption price (redemption-in-kind).

Specifically, if the amount you are redeeming during any 90-day period is in excess of the lesser of \$250,000 or 1% of the NAV of the Fund being redeemed, valued at the beginning of such period, the Fund has the right to redeem your shares by giving you the amount that exceeds \$250,000 or 1% of the NAV of the Fund being redeemed in securities instead of cash. If a Fund pays your redemption proceeds by a distribution of securities, you could incur brokerage or other charges in converting the securities to cash, and will bear any market risks associated with such securities until they are converted into cash.

Exchanging Shares

You may exchange all or a portion of your investment from one Fund to the other Fund. Any new account established through an exchange will be subject to the minimum investment requirements described above (\$2,500 for initial exchanges into a new Fund, \$50 for subsequent exchanges into the Fund). Exchanges will be executed on the basis of the relative NAV of the shares exchanged. An exchange is considered to be a sale of shares for federal income tax purposes on which you may realize a taxable gain or loss. Call the Funds (toll-free) at (866) PMC-7338 to learn more about exchanges.

Tools to Combat Frequent Transactions

The Funds are intended for long-term investors. Short-term “market-timers” who engage in frequent purchases and redemptions can disrupt a Fund’s investment program and create additional transaction costs that are borne by all of the Fund’s shareholders. The Board of Trustees has adopted policies and procedures that are designed to discourage excessive, short-term trading and other abusive trading practices that may

disrupt portfolio management strategies and harm performance. The Funds take steps to reduce the frequency and effect of these activities in the Funds. These steps may include, among other things, monitoring trading activity and using fair value pricing, as determined by the Board of Trustees, when the Adviser determines current market prices are not readily available. Although these efforts are designed to discourage abusive trading practices, these tools cannot eliminate the possibility that such activity will occur. The Funds seek to exercise their judgment in implementing these tools to the best of their ability in a manner that they believe is consistent with shareholder interests. Except as noted herein, the Funds apply all restrictions uniformly in all applicable cases.

The Funds use a variety of techniques to monitor for and detect abusive trading practices. These techniques may change from time to time as determined by the Funds in their sole discretion. To minimize harm to the Funds and their shareholders, the Funds reserve the right to reject any purchase order or exchange request (but not a redemption request) in whole or in part, for any reason (including, without limitation, purchases by persons whose trading activity in Fund shares is believed by the Adviser to be harmful to the Funds) and without prior notice. The Funds may decide to restrict purchase and sale activity in their shares based on various factors, including whether frequent purchase and sale activity will disrupt portfolio management strategies and adversely affect Fund performance.

Due to the complexity and subjectivity involved in identifying abusive trading activity and the volume of shareholder transactions the Funds handle, there can be no assurance that the Funds' efforts will identify all trades or trading practices that may be considered abusive. In particular, since the Funds receive purchase and sale orders through financial intermediaries that use group or omnibus accounts, the Funds cannot always detect frequent trading. However, the Funds will work with Financial Institutions as necessary to discourage shareholders from engaging in abusive trading practices and to impose restrictions on excessive trades. In this regard, the Funds have entered into information sharing agreements with financial intermediaries pursuant to which these intermediaries are required to provide to the Funds, at the Funds' request, certain information relating to their customers investing in the Funds through non-disclosed or omnibus accounts. The Funds will use this information to attempt to identify abusive trading practices. Financial intermediaries are contractually required to follow any instructions from the Funds to restrict or prohibit future purchases from shareholders that are found to have engaged in abusive trading in violation of the Funds' policies. However, the Funds cannot guarantee the accuracy of the information provided to them from financial intermediaries and cannot ensure that they will always be able to detect abusive trading practices that occur through non-disclosed and omnibus accounts. As a result, the Funds' ability to monitor and discourage abusive trading practices in non-disclosed or omnibus accounts may be limited.

Other Fund Policies

If you elect telephone privileges on the account application or in a letter to the Funds, you may be responsible for any fraudulent telephone orders as long as the Funds have taken reasonable precautions to verify your identity. In addition, once you place a telephone transaction request, it cannot be canceled or modified.

During periods of significant economic or market change, telephone transactions may be difficult to complete. If you are unable to contact the Funds by telephone, you may also mail the requests to the Funds at the address listed previously in the section entitled "How to Purchase Shares," above.

Telephone trades must be received by or prior to the close of the NYSE (generally 4:00 p.m., Eastern time). During periods of high market activity, shareholders may encounter higher than usual call waiting times. Please allow sufficient time to ensure that you will be able to complete your telephone transaction prior to the close of the NYSE.

Your broker-dealer or other financial institution may establish policies that differ from those of the Funds. For example, the institution may charge transaction fees, set higher minimum investments or impose certain

limitations on buying or selling shares in addition to those identified in this Prospectus. Contact your broker-dealer or other financial institution for details.

12b-1 Fees

The Funds have adopted a Distribution Plan (the “Plan”) pursuant to Rule 12b-1 under the 1940 Act. Under the Plan, the Funds are authorized to pay the Funds’ distributor or such other entities as approved by the Board of Trustees, a fee for the sale and distribution of the Funds’ shares and the provision of services to shareholders. The maximum amount of the fee authorized is 0.25% of each Fund’s average daily net assets annually. The Funds’ distributor may pay any or all amounts received under the Plan to other persons, including the Adviser, for any distribution or service activity. Because these fees are paid out of each Fund’s assets on an on-going basis, over time these fees will increase the cost of your investment in a Fund and may cost you more than paying other types of sales charges.

In addition to the fees paid under the Plan, the Funds may pay service fees to intermediaries such as banks, broker-dealers, financial advisers or other financial institutions, including the Adviser and affiliates of the Adviser and sub-advisers, for sub-administration, sub-transfer agency and other shareholder services associated with shareholders whose shares are held of record in omnibus, other group accounts or accounts traded through registered securities clearing agents.

The Adviser, out of its own resources, and without additional cost to the Funds or their shareholders, may provide additional cash payments or non-cash compensation to intermediaries who sell shares of the Funds. Such payments and compensation are in addition to service fees paid by the Funds, if any. These additional cash payments are generally made to intermediaries that provide shareholder servicing, marketing support and/or access to sales meetings, sales representatives and management representatives of the intermediary. Cash compensation may also be paid to intermediaries for inclusion of a Fund on a sales list, including a preferred or select sales list, in other sales programs or as an expense reimbursement in cases where the intermediary provides shareholder services to a Fund’s shareholders. The Adviser may also pay cash compensation in the form of finder’s fees that vary depending on the dollar amount of the shares sold.

Distributions and Taxes

Distributions

The Funds will make distributions of net investment income and net capital gains, if any, at least annually, typically within the month of December. The Funds may make additional distributions if they deem it desirable at another time during any year.

All distributions will be reinvested in Fund shares unless you choose one of the following options: (1) receive distributions of net capital gains in cash, while reinvesting net investment income distributions in additional Fund shares; (2) receive all distributions in cash; or (3) reinvest net capital gain distributions in additional fund shares, while receiving distributions of net investment income in cash.

If you wish to change your distribution option, write to the Transfer Agent in advance of the payment date of the distribution. Any such change will be effective only as to distributions for which the record date is five or more days after the Transfer Agent receives the written request.

If you elect to receive distributions in cash and the U.S. Postal Service cannot deliver your check, or if a check remains uncashed for six months, the Funds reserve the right to reinvest the distribution check in your account at the applicable Fund’s then current NAV and to reinvest all subsequent distributions.

Tax Consequences

Distributions of the Funds' net investment income (which includes, but is not limited to, interest, dividends, net short-term capital gains and net gains from foreign currency transactions), if any, are generally taxable to the Funds' shareholders as ordinary income. To the extent that a Fund's distributions of net investment income are designated as attributable to "qualified dividend" income, such income may be subject to tax at the reduced rate of federal income tax applicable to non-corporate shareholders for net long-term capital gains, if certain holding period requirements have been satisfied by the Fund and the shareholder. To the extent the Fund's distributions of net investment income are attributable to net short-term capital gains, such distributions will be treated as ordinary dividend income for the purposes of income tax reporting and will not be available to offset a shareholder's capital losses from other investments.

Distributions of net capital gains (net long-term capital gains less net short-term capital losses) are generally taxable as long-term capital gains (currently a rate of up to 15%) regardless of the length of time a shareholder has owned Fund shares.

You will be taxed in the same manner whether you receive your distributions (whether of net investment income or net capital gains) in cash or reinvest them in additional Fund shares.

Shareholders that sell, exchange or redeem shares generally will have a capital gain or loss from the sale, exchange or redemption. The amount of the gain or loss and the applicable rate of federal income tax will depend generally upon the amount paid for the shares, the amount received from the sale, exchange or redemption and how long the shares were held by a shareholder. If you purchase Fund shares within 30 days before or after redeeming other Fund shares at a loss, all or part of your loss will not be deductible and will instead increase the basis of the newly purchased shares.

Shareholders will be advised annually as to the federal tax status of all distributions made by the Funds for the preceding year. Distributions by the Funds may also be subject to state and local taxes. Additional tax information may be found in the SAI.

This section is not intended to be a full discussion of federal tax laws and the effect of such laws on you. There may be other federal, state, foreign or local tax considerations applicable to a particular investor. You are urged to consult your own tax adviser.

Financial Highlights

The following financial highlights table shows the Core Fixed Income Fund's financial performance information from September 28, 2007 (the Fund's commencement of operations) to the period ended August 31, 2008 and for the year ended August 31, 2009 and the Diversified Equity Fund's financial performance from August 26, 2009 (the Fund's commencement of operations) to the period ended August 31, 2009. Certain information reflects financial results for a single share of the Fund. The total return in the table represents the rate that you would have earned or lost on an investment in the Fund (assuming you reinvested all distributions). This information has been audited by Deloitte & Touche LLP, the independent registered public accounting firm of the Funds, whose report, along with the Fund's financial statements, are included in the Fund's annual report for the fiscal year ended August 31, 2009, which is available upon request.

PRIVACY NOTICE

The Funds collect non-public personal information about you from the following sources:

- information we receive about you on applications or other forms;
- information you give us orally; and/or
- information about your transactions with us or others.

We do not disclose any non-public personal information about our shareholders or former shareholders without the shareholder's authorization, except as permitted by law or in response to inquiries from governmental authorities. We may share information with affiliated parties and unaffiliated third parties with whom we have contracts for servicing the Funds. We will provide unaffiliated third parties with only the information necessary to carry out their assigned responsibility. All shareholder records will be disposed of in accordance with applicable law. We maintain physical, electronic and procedural safeguards to protect your non-public personal information and require third parties to treat your non-public personal information with the same high degree of confidentiality.

In the event that you hold shares of the Funds through a financial intermediary, including, but not limited to, a broker-dealer, bank or trust company, the privacy policy of your financial intermediary would govern how your non-public personal information would be shared with unaffiliated third parties.
