Registration Nos. 333-62298; 811-10401

Supplement dated February 11, 2021
to the
Prospectus, Summary Prospectus
and Statement of Additional Information ("SAI")
dated December 29, 2020
for PMC Core Fixed Income Fund,
a series of Trust for Professional Managers

On January 26, 2021, the Board of Trustees (the "Board") of Trust for Professional Managers (the "Trust") approved an amendment to the Investment Advisory Agreement between the Trust, on behalf of the PMC Core Fixed Income Fund (the "Fund"), and Envestnet Asset Management, Inc. (the "Adviser"), the Fund's investment adviser, pursuant to which the Adviser has agreed to reduce the Fund's tiered management fee as outlined below effective as of January 26, 2021. Also effective as of January 26, 2021, the Board approved an amendment to the operating expense limitation agreement between the Trust, on behalf of the Fund, and the Adviser, pursuant to which the Adviser has agreed to reduce the Fund's operating expense limit by 0.15% to ensure that Total Annual Fund Operating Expenses (exclusive of Excluded Expenses (as defined below)) do not exceed 0.60% of the Fund's average daily net assets through at least January 31, 2022.

Effective January 26, 2021, the Adviser and Neuberger Berman Investment Advisers LLC ("NBIA"), a sub-adviser to the Fund, entered into an amendment to the Investment Sub-Advisory Agreement between the Adviser and NBIA, on behalf of the Fund, pursuant to which the annual sub-advisory fee payable to NBIA is reduced to 0.175% of the Fund's average daily net assets.

Effective January 28, 2021, the sub-advisory agreement between the Adviser and Schroder Investment Management North America Inc. ("Schroder"), a sub-adviser to the Fund, has been terminated. Accordingly, all references to Schroder in the Prospectus and SAI are hereby removed.

The following disclosures in the Prospectus, Summary Prospectus and SAI are hereby revised to reflect the Fund's management fee and operating expense limit reductions:

Prospectus and Summary Prospectus

Page 1 – "Summary Section –Fees and Expenses of the Fund"

Shareholder Fees *(fees paid directly from your investment)*	**Advisor Class Shares**	**Institutional Class Shares**
	None	None
Annual Fund Operating Expenses *(expenses that you pay each year as a percentage of the value of your investment)*		
Management Fees	0.65%	0.65%
Distribution (12b-1) Fees	0.25%	None
Other Expenses	0.27%	0.27%
Total Annual Fund Operating Expenses(1)	1.17%	0.92%
Fee Waiver/Expense Reimbursement	-0.31%	-0.31%
Total Annual Fund Operating Expenses After Fee Waiver/Expense Reimbursement(1)(2)	0.86%	0.61%

(1) Please note that these figures do not correlate to the figures found within the "Financial Highlights" section of the prospectus as effective January 26, 2021, the Fund's management fee and operating expense limitation were each reduced by 0.15% of the Fund's average daily net assets. In addition, the figures found within the "Financial Highlights" section of the prospectus include only the direct operating expenses incurred by the Fund and exclude Acquired Fund Fees and Expenses ("AFFE").

(2) Pursuant to an operating expense limitation agreement between Envestnet Asset Management, Inc. (the "Adviser"), the Fund's investment adviser, and the Trust, on behalf of the Fund, the Adviser has agreed to waive its management fees and/or reimburse expenses of the Fund to ensure that Total Annual Fund Operating Expenses (exclusive of any front-end or contingent deferred loads, Rule 12b-1 plan fees, shareholder servicing plan fees, taxes, leverage (*i.e.*, any expenses incurred in connection with borrowings made by the Fund), interest (including interest incurred in connection with bank and custody overdrafts), brokerage commissions and other transactional expenses, expenses incurred in connection with any merger or reorganization, dividends or interest on short positions, AFFE or extraordinary expenses such as litigation (collectively "Excluded Expenses")) do not exceed 0.60% of the Fund's average daily net assets through January 31, 2022. The operating expense limitation agreement can be terminated only by, or with the consent of, the Trust's Board of Trustees (the "Board of Trustees"). The Adviser may request recoupment of previously waived fees and paid expenses from the Fund up to three years from the date such fees and expenses were waived or paid, subject to the operating expense limitation agreement, if such reimbursement will not cause the Fund's expense ratio, after recoupment has been taken into account, to exceed the lesser of: (1) the expense limitation in place at the time of the waiver and/or expense payment; or (2) the expense limitation in place at the time of the recoupment.

Example. This Example is intended to help you compare the costs of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest $10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. The operating expense limitation discussed in the table above is reflected through January 31, 2022. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

	One Year	Three Years	Five Years	Ten Years
Advisor Class	$88	$341	$614	$1,393
Institutional Class	$62	$262	$479	$1,103

Prospectus

Page 21 – "Management of the Funds - The Adviser and Portfolio Managers"

The Funds have entered into an investment advisory agreement (the "Advisory Agreement") with Envestnet Asset Management, Inc., a registered investment adviser located at 35 East Wacker Drive, Suite 2400, Chicago, Illinois 60601, under which the Adviser manages each Fund's investments subject to the supervision of the Board of Trustees. The Adviser is a wealth management firm founded in 1999 and provides investment management services to investment advisers and institutional and individual investors. As of September 30, 2020, the Adviser managed approximately $288.9 billion in assets. The Adviser is entitled to an annual fee from each Fund for its services. For the fiscal year ended August 31, 2020, the Advisor received management fees of 0.49% (net of fee waivers) of the Core Fixed Income Fund's average daily net assets and 0.54% of the Diversified Equity Fund's average daily net assets.

Subject to the general supervision of the Board of Trustees, the Adviser is responsible for managing each Fund in accordance with its investment objectives and policies, and with respect to the Core Fixed Income Fund, making recommendations with respect to the hiring, termination or replacement of one or more subadvisers.

The Adviser actively manages the Diversified Equity Fund's investment portfolio and actively manages a portion of the Core Fixed Income Fund's investment portfolio. The Adviser also maintains related records for the Funds.

Fund Expenses. Pursuant to an operating expense limitation agreement between the Adviser and the Funds, the Adviser has agreed to waive its management fees and/or reimburse expenses to ensure that the total amount of the Fund's operating expenses (exclusive of Excluded Expenses) does not exceed 0.60% and 0.73% of the average daily net assets for the Core Fixed Income Fund and Diversified Equity Fund, respectively, and subject to annual re-approval of the agreement by the Board of Trustees thereafter. Any waiver of management fees or payment of expenses made by the Adviser may be reimbursed by a Fund in subsequent fiscal years if the Adviser so requests. This reimbursement may be requested if the aggregate amount actually paid by the applicable Fund toward operating expenses for such fiscal year (taking into account the reimbursement) does not exceed the applicable limitation on Fund expenses at the time of waiver. The Adviser may request recoupment of previously waived fees and paid expenses from a Fund up to three years from the date such fees and expenses were waived or paid, subject to the operating expense limitation agreement, if such reimbursement will not cause the Fund's expense ratio, after recoupment has been taken into account, to exceed the lesser of: (1) the expense limitation in place at the time of the waiver and/or expense payment; or (2) the expense limitation in place at the time of the recoupment. Any such reimbursement will be reviewed and approved by the Board of Trustees. The operating expense limitation agreement, effective through at least January 31, 2022, can be terminated only by, or with the consent of, the Board of Trustees.

A discussion regarding the basis for the Board of Trustees' approval of the Advisory Agreement between the Trust and the Adviser, on behalf of the Funds, is included in the Funds' annual report to shareholders for the fiscal year ended August 31, 2020.

The Funds, as series of the Trust, do not hold themselves out as related to any other series of the Trust for purposes of investment and investor services, nor do they share the same investment adviser with any other series of the Trust.

SAI

Page 34 – "Management of the Funds - Investment Adviser"

As stated in the Prospectus, investment advisory services are provided to the Funds by Envestnet Asset Management, Inc., 35 East Wacker Drive, Suite 2400, Chicago, Illinois 60601, pursuant to an investment advisory agreement (the "Advisory Agreement"). As of the date of this SAI, the Adviser is a wholly owned subsidiary of Envestnet, Inc., a Delaware corporation who, through its affiliated companies, provides technology-enabled, Web-based investment solutions and services to financial advisers. Subject to such policies as the Board of Trustees may determine, the Adviser is ultimately responsible for investment decisions for the Funds and performing oversight of the Funds' sub-advisers as described below. Pursuant to the terms of the Advisory Agreement, the Adviser provides the Funds with such investment advice and supervision, as it deems necessary for the proper supervision of the Funds' investments.

The Advisory Agreement continues in effect from year to year, only if such continuance is specifically approved at least annually by: (i) the Board of Trustees or the vote of a majority of the outstanding voting securities of each Fund; and (ii) the vote of a majority of the trustees who are not parties to the Advisory Agreement or interested persons of any such party, at a meeting called for the purpose of voting on the Advisory Agreement. The Advisory Agreement is terminable without penalty by the Trust, on behalf of a Fund, upon 60 days' written notice to the Adviser when authorized either by: (i) a majority vote of the outstanding voting securities of the Fund; or (ii) by a vote of a majority of the Board of Trustees, or by the Adviser upon 60 days' written notice to the Trust, and the Advisory Agreement will automatically terminate in the event of its "assignment" (as defined in the 1940 Act). The Advisory Agreement provides that the Adviser, under such agreement, shall not be liable for any error of judgment or mistake of law or for any loss arising out of any investment or for any act or omission in the execution of portfolio transactions for the Funds, except for willful misfeasance, bad faith or negligence in the performance of its duties, or by reason of reckless disregard of its obligations and duties thereunder.
In consideration of the services provided by the Adviser pursuant to the Advisory Agreement, the Adviser is entitled to receive from the Core Fixed Income Fund a management fee computed daily and paid monthly. The table below illustrates the base fees paid to the Adviser along with reduced fees paid on assets in excess of certain levels (breakpoints):

Advisory Fee (as a percentage of average daily net assets)

Fund	$2.5 billion or less	More than $2.5 billion but less than $5 billion	$5 billion or more
Core Fixed Income Fund	0.650%	0.625%	0.600%

In consideration of the services provided by the Adviser pursuant to the Advisory Agreement, the Adviser is entitled to receive from the Diversified Equity Fund a management fee computed daily and paid monthly, based on a rate equal to 0.530% of the Fund's average daily net assets.

However, the Adviser may voluntarily agree to waive a portion of the management fees payable to it on a month-to-month basis, including additional fees above and beyond any contractual agreement the Adviser may have to waive management fees and/or reimburse Fund expenses.

The tables below set forth, for the fiscal years ended August 31, 2020, 2019 and 2018, the advisory fees accrued by the Funds under the Advisory Agreement, the amounts of the advisory fees waived or recouped by the Adviser, and the total advisory fees paid by the Funds to the Adviser under the Advisory Agreement:

Core Fixed Income Fund

Fiscal Year Ended	Advisory Fee	(Waiver)	Advisory Fee after Waiver
August 31, 2020	$3,167,046	($1,245,915)	$1,921,131
August 31, 2019	$3,198,541	($1,137,251)	$2,061,290
August 31, 2018	$2,872,422	($1,083,011)	$1,789,411

Diversified Equity Fund

Fiscal Year Ended	Advisory Fee	Recoupment / (Waiver)	Advisory Fee after Recoupment/(Waiver)
August 31, 2020	$4,461,526	$115,466	$4,576,992
August 31, 2019	$4,259,302	$306,381	$4,565,683
August 31, 2018	$6,230,415	($64,044)	$6,166,371

Fund Expenses. Each Fund is responsible for its own operating expenses. However, pursuant to an operating expense limitation agreement between the Adviser and the Trust, the Adviser has contractually agreed to waive management fees payable to it by the Funds and/or to reimburse Fund operating expenses to the extent necessary to limit the Funds' aggregate annual operating expenses (exclusive of front-end or contingent deferred loads, 12b-1 plan fees, shareholder servicing plan fees, taxes, leverage (*i.e.* any expenses incurred in connection with borrowings made by the Fund), interest, brokerage commissions, expenses incurred in connection with any merger or reorganization, acquired fund fees and expenses or extraordinary expenses such as litigation) to the limit set forth in the "Fees and Expenses Table" of the Prospectus. The Adviser may request recoupment of previously waived fees and paid expenses from a Fund for up to three years from the date such fees and expenses were waived or paid, subject to the operating expense limitation agreement, if such reimbursements will not cause the Funds' expense ratio, after recoupment has been taken into account, to exceed the lesser of: (1) the expense limitation in place at the time of the waiver and/or expense payment; or (2) the expense limitation in place at the time of the recoupment. Any such waiver is also contingent upon the Board of Trustees' subsequent review and ratification of the reimbursed amounts.

PMC Core Fixed Income Fund

Advisor Class Shares (PMFIX)
Institutional Class Shares (PMFQX)

www.investpmc.com

Before you invest, you may want to review the PMC Core Fixed Income Fund's (the "Fund") Statutory Prospectus and Statement of Additional Information, which contain more information about the Fund and its risks. The current Statutory Prospectus and Statement of Additional Information dated December 29, 2020 are incorporated by reference into this Summary Prospectus. You can find the Fund's Statutory Prospectus, Statement of Additional Information and other information about the Fund online at http://www.investpmc.com/solutions/portfolios. You can also get this information at no cost by calling (866) PMC-7338 or by sending an email request to ClientServices@envestnetpmc.com.

Beginning on January 1, 2021, as permitted by regulations adopted by the SEC, paper copies of the Funds' annual and semi-annual shareholder reports will no longer be sent by mail, unless you specifically request paper copies of the reports from the Funds or from your financial intermediary (such as a broker-dealer or bank). Instead, the reports will be made available on a website, and you will be notified by mail each time a report is posted and provided with a website link to access the report.

If you already elected to receive shareholder reports electronically, you will not be affected by this change and you need not take any action. You may elect to receive shareholder reports and other communications from the Funds electronically by contacting your financial intermediary or, if you are a direct investor, by calling the Funds at 1-866-762-7338.

You may elect to receive all future reports in paper free of charge. If you invest through a financial intermediary, you can contact your financial intermediary to request that you continue to receive paper copies of your shareholder reports; if you invest directly with the Funds, you can call the Funds at 1-866-762-7338. Your election to receive reports in paper form will apply to all funds held in your account with your financial intermediary or, if you invest directly, to all PMC Funds you hold.

Investment Objective. The investment objective of the PMC Core Fixed Income Fund (the "Core Fixed Income Fund" or the "Fund") is to provide current income consistent with low volatility of principal.

Fees and Expenses of the Fund. This table describes the fees and expenses that you may pay if you buy, hold and sell shares of the Fund. You may pay other fees, such as brokerage commissions and other fees to financial intermediaries, which are not reflected in the table and example below.

Shareholder Fees *(fees paid directly from your investment)*	**Advisor Class Shares**	**Institutional Class Shares**
	None	None

Annual Fund Operating Expenses *(expenses that you pay each year as a percentage of the value of your investment)*		
Management Fees	0.80%	0.80%
Distribution (12b-1) Fees	0.25%	None
Other Expenses	0.27%	0.27%
Total Annual Fund Operating Expenses(1)	1.32%	1.07%
Fee Waiver/Expense Reimbursement	-0.31%	-0.31%
Total Annual Fund Operating Expenses After Fee Waiver/Expense Reimbursement(2)	1.01%	0.76%

(1) Please note that Total Annual Fund Operating Expenses in the table above do not correlate to the ratio of Expenses to Average Net Assets found within the "Financial Highlights" section of this prospectus which does not include Acquired Fund Fees and Expenses ("AFFE").

(2) Pursuant to an operating expense limitation agreement between Envestnet Asset Management, Inc. (the "Adviser"), the Fund's investment adviser, and the Trust, on behalf of the Fund, the Adviser has agreed to waive its management fees and/or reimburse expenses of the Fund to ensure that Total Annual Fund Operating Expenses (exclusive of any front-end or contingent deferred loads, Rule 12b-1 plan fees, shareholder servicing plan fees, taxes, leverage (*i.e.*, any expenses incurred in connection with borrowings made by the Fund), interest (including interest incurred in connection with bank and custody overdrafts), brokerage commissions and other transactional expenses, expenses incurred in connection with any merger or reorganization, dividends or interest on short positions, AFFE or extraordinary expenses such as litigation (collectively "Excluded Expenses")) do not exceed 0.75% of the Fund's average daily net assets through December 29, 2021. The operating expense limitation agreement can be terminated only by, or with the consent of, the Trust's Board of Trustees (the "Board of Trustees"). The Adviser may request recoupment of previously waived fees and paid expenses from the Fund up to three years from the date such fees and expenses were waived or paid, subject to the operating expense limitation agreement, if such reimbursement will not cause the Fund's expense ratio, after recoupment has been taken into account, to exceed the lesser of: (1) the expense limitation in place at the time of the waiver and/or expense payment; or (2) the expense limitation in place at the time of the recoupment.

Example. This Example is intended to help you compare the costs of investing in the Fund with the cost of investing in other mutual funds. The Example assumes that you invest $10,000 in the Fund for the time periods indicated and then redeem all of your shares at the end of those periods. The Example also assumes that your investment has a 5% return each year and that the Fund's operating expenses remain the same. The operating expense limitation discussed in the table above is reflected through December 29, 2021. Although your actual costs may be higher or lower, based on these assumptions, your costs would be:

	One Year	Three Years	Five Years	Ten Years
Advisor Class	$103	$388	$694	$1,563
Institutional Class	$78	$310	$560	$1,278

Portfolio Turnover. The Fund pays transaction costs, such as commissions or spreads, when it buys and sells securities (or "turns over" its portfolio). A higher portfolio turnover rate may generate higher transaction costs and may result in higher taxes when Fund shares are held in a taxable account. These costs, which are not reflected in Total Annual Fund Operating Expenses or in the Example, affect the Fund's performance. During the most recent fiscal year, the Fund's portfolio turnover rate was 180.7% of the average value of its portfolio.

Principal Investment Strategies. Under normal market conditions, the Fund will invest at least 80% of its net assets (plus any borrowings for investment purposes) in fixed income securities that are rated investment grade or better (i.e., securities rated in the top four ratings categories by independent rating organizations such as Standard & Poor's Ratings Group ("S&P") and Moody's Investors Service, Inc. ("Moody's") or another nationally recognized statistical rating organization ("NRSRO"), or determined to be of comparable quality by the Adviser or sub-adviser if the security is unrated). In addition, the Fund may invest up to 20% of its net assets, measured at the time of purchase, in high-yield debt securities that are rated BB+ or lower by a NRSRO, or, if unrated, securities deemed by the Adviser or a sub-adviser to be of comparable quality). Such securities are considered to be below "investment grade" and are also known as "junk bonds." The lowest rating for any high-yield debt security in which the Fund may invest is CCC+ by a NRSRO. In the event a security is split rated by two or more NRSROs, the higher rating will be used to determine credit quality. The Fund may invest in fixed income securities with a range of maturities, from short-term obligations carrying maturities of less than one year to long-term obligations carrying maturities of more than 20 years. It is expected that the weighted average maturity of the securities in the Fund will closely approximate the weighted average maturity of the Bloomberg Barclays U.S. Aggregate Bond Index.

The Fund intends to invest in the following types of fixed income securities:

- U.S. Government and U.S. Agency Obligations
- U.S. Treasury obligations and other "stripped securities"
- mortgage-backed securities
- asset-backed securities
- U.S. and foreign corporate debt
- municipal securities
- obligations of international agencies or supranational entities
- zero-coupon, pay-in-kind or deferred-payment securities
- when-issued securities
- delayed-delivery securities
- custodial receipts
- high-yield debt securities
- emerging markets debt
- convertible securities

The Fund may invest up to 20% of its net assets in fixed income securities issued by foreign corporations and foreign governments, including corporations and governments in emerging markets that are denominated in a currency other than the U.S. dollar. The foreign fixed income securities in which the Fund invests may have maturities of any length, and may be investment grade, non-investment grade or unrated. In addition to direct investments in fixed income securities, at any time the Fund may seek to achieve its investment objective by allocating up to 100% of its assets among shares of different exchange-traded funds ("ETFs") that invest in fixed income securities that are rated investment grade or better by Moody's, S&P or another NRSRO.

The Manager of Managers Approach. The Adviser is responsible for developing, constructing and monitoring the asset allocation and portfolio strategy for the Fund and may actively manage a portion of the Fund's portfolio. The Adviser believes that an investment's reward and risk characteristics can be enhanced by employing multiple sub-advisory firms, with complementary styles and approaches, who manage distinct segments of a market, asset class or investment style for the Fund. In managing the Fund, the Fund's sub-advisers generally rely on detailed proprietary research. The sub-advisers focus on the sectors and securities they believe are undervalued relative to the market. The Fund's sub-advisers will trade the Fund's portfolio securities actively, and may experience a high portfolio turnover rate. In selecting individual securities for investment, the Fund's sub-advisers typically:

- use in-depth fundamental research to identify sectors and securities for investment by the Fund and to analyze risk;
- exploit inefficiencies in the valuation of risk and reward;
- look to capitalize on rapidly shifting market risks and dynamics caused by economic and technical factors; and
- consider the liquidity of securities and the portfolio overall as an important factor in portfolio construction.

The Fund's sub-advisers generally sell securities in order to take advantage of investments in other securities offering what the sub-adviser believes is the potential for more attractive current income or capital gain or both.

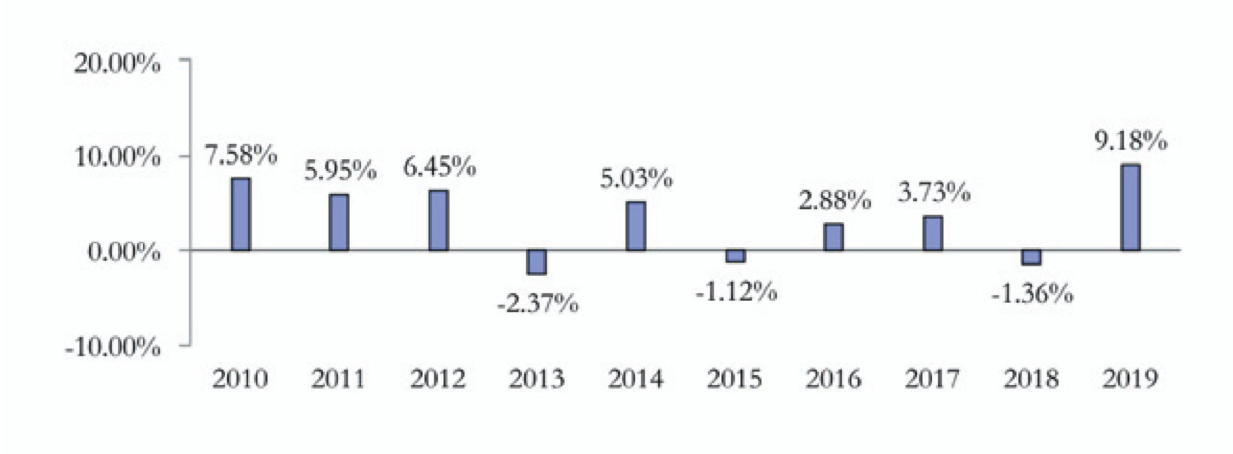
Principal Risks. Before investing in the Fund, you should carefully consider your own investment goals, the amount of time you are willing to leave your money invested, and the amount of risk you are willing to take. Remember, in addition to possibly not achieving your investment goals, **you could lose money by investing in the Fund.** The principal risks of investing in the Fund are:

- *Management Risk.* The Adviser's investment strategies for the Fund, including the "manager of managers" approach described above, may not result in an increase in the value of your investment or in overall performance equal to other investments.
- *General Market Risk.* The value of the Fund's shares will fluctuate based on the performance of the Fund's investments and other factors affecting the securities markets generally.
- *Recent Market Events Risk.* U.S. and international markets have experienced significant periods of volatility in recent months and years due to a number of economic, political and global macro factors including the impact of the coronavirus (COVID-19) as a global pandemic which has resulted in public health issues, business interruptions, growth concerns in the U.S. and overseas, layoffs, rising unemployment claims, changed travel and social behaviors, and reduced consumer spending. The effects of COVID-19 may lead to a substantial economic downturn or recession in the U.S. and global economies, the recovery from which is uncertain and may last for an extended period of time.
- *When-Issued Securities Risk.* The price or yield obtained in a when-issued transaction may be less favorable than the price or yield available in the market when the securities delivery takes place, or that failure of a party to a transaction to consummate the trade may result in a loss to the Fund or missing an opportunity to obtain a price considered advantageous.
- *Foreign Securities and Currency Risk.* Risks relating to political, social and economic developments abroad and differences between U.S. and foreign regulatory requirements and market practices, including fluctuations in foreign currencies. Countries in emerging markets are generally more volatile and can have relatively unstable governments, social and legal systems that do not protect shareholders, economies based on only a few industries, and securities markets that trade a small number of issues. Income earned on foreign securities may be subject to foreign withholding taxes.
- *ETF Risk.* Risk associated with bearing indirect fees and expenses charged by ETFs in which the Fund may invest in addition to its direct fees and expenses, as well as indirectly bearing the principal risks of those ETFs. Also, there is a risk that the market price of the ETF's shares may trade at a discount to their net asset value or that an active trading market for an ETF's shares may not develop or be maintained.
- *High Portfolio Turnover Rate Risk.* A high portfolio turnover rate (100% or more) has the potential to result in increased brokerage transaction costs and the realization by the Fund and distribution to shareholders of a greater amount of capital gains, including short-term capital gains, than if the Fund had a low portfolio turnover rate. As a result, it is likely you may have a higher tax liability as distributions to shareholders of short-term capital gains are taxed as ordinary income under federal income tax laws.
- *Debt Securities Risk.* Interest rates may go up resulting in a decrease in the value of the securities held by the Fund. Credit risk is the risk that an issuer will not make timely payments of principal and interest. A credit rating assigned to a particular debt security is essentially the opinion of an NRSRO as to the credit quality of an issuer and may prove to be inaccurate. There is also the risk that a bond issuer may "call," or repay, its high yielding bonds before their maturity dates. Debt securities subject to prepayment can offer less potential for gains during a declining interest rate environment and similar or greater potential for loss in a rising interest rate environment. Limited trading opportunities for certain fixed income securities may make it more difficult to sell or buy a security at a favorable price or time.

- *High-Yield Debt Securities Risk.* The fixed income securities held by the Fund that are rated below investment grade are subject to additional risk factors such as increased possibility of default, illiquidity of the security, and changes in value based on public perception of the issuer. Such securities are generally considered speculative because they present a greater risk of loss, including default, than higher quality debt securities.
- *Municipal Securities Risk.* The value of municipal securities may be adversely affected by local political and economic factors, supply and demand factors, the creditworthiness of the issuer, or the ability of the issuer or projects backing such securities to generate taxes or revenues.
- *LIBOR Transition Risk*. The Fund may invest in securities or derivatives that use LIBOR as a benchmark or reference rate. The expected discontinuation of LIBOR could have a significant impact on the financial markets, and may present a risk for certain market participants, including the risk that the transition from LIBOR to alternative interest rate benchmarks will not be orderly, will occur over various time periods or will have unintended consequences.
- *Asset-Backed and Mortgage-Backed Securities Risk.* Asset-backed and mortgage-backed securities are subject to the risk of prepayment. These types of securities may also decline in value because of mortgage foreclosures or defaults on the underlying obligations.
- *U.S. Government and U.S. Agency Obligations Risk.* Entities that are not backed by the full faith and credit of the U.S. Government may default on a financial obligation. The value of these types of securities may also decline when market interest rates increase.
- *Interest Rate Risk.* Debt securities are subject to the risk that the securities could lose value because of interest rate changes. For example, bonds tend to decrease in value if interest rates rise. Debt securities with longer maturities sometimes offer higher yields, but are subject to greater price shifts as a result of interest rate changes than debt securities with shorter maturities.
- *Call Risk.* During periods of declining interest rates, a bond issuer may “call”-or repay- its high yielding bonds before their maturity dates.
- *Prepayment and Extension Risk.* Prepayment occurs when the issuer of a debt security can repay principal prior to the security’s maturity. Debt securities subject to prepayment can offer less potential for gains during a declining interest rate environment and similar or greater potential for loss in a rising interest rate environment. In addition, the potential impact of prepayment features on the price of a debt security can be difficult to predict and result in greater volatility. On the other hand, rising interest rates could cause prepayments of the obligations to decrease, extending the life of mortgage- and asset-backed securities with lower payment rates.
- *Credit Risk.* Debt securities are generally subject to the risk that the issuer may be unable to make principal and interest payments when they are due. There is also the risk that the securities could lose value because of a loss of confidence in the ability of the borrower to pay back debt. Lower rated debt securities involve greater credit risk, including the possibility of default or bankruptcy.
- *Liquidity Risk.* Trading opportunities are more limited for fixed income securities that have not received any credit ratings, have received ratings below investment grade or are not widely held. These features make it more difficult to sell or buy a security at a favorable price or time.
- *Emerging Markets Risk.* The Fund may invest in securities of foreign companies located in emerging markets, which are markets of countries in the initial stages of industrialization and that generally have low per capita income. In addition to the risks of foreign securities in general, countries in emerging markets are generally more volatile and can have relatively unstable governments, social and legal systems that do not protect shareholders, economies based on only a few industries, and securities markets that trade a small number of issues.
- *Cybersecurity Risk.* With the increased use of technologies such as the Internet to conduct business, the Fund is susceptible to operational, information security, and related risks. Cyber incidents affecting the Fund or its service providers may cause disruptions and impact business operations, potentially resulting in financial losses, interference with the Fund’s ability to calculate its net asset value (“NAV”), impediments to trading, the inability of shareholders to transact business, violations of applicable privacy and other laws, regulatory fines, penalties, reputational damage, reimbursement or other compensation costs, or additional compliance costs.

Performance. The performance information demonstrates the risks of investing in the Fund by showing changes in the Fund’s performance from year to year and by showing how the Fund’s average annual total returns for the one year, five year, ten year and since inception periods compare with those of a broad measure of market performance. Remember, the Fund’s past performance, before and after taxes, is not necessarily an indication of how the Fund will perform in the future. Updated performance information is available by calling toll-free at (866) PMC-7338.

Advisor Class Shares[1]
Calendar Year Returns as of December 31



(1) The returns shown in the bar chart are for Advisor Class shares of the Fund. Institutional Class shares would have substantially similar annual returns because the shares are invested in the same portfolio of securities and the annual returns would differ only to the extent that Institutional Class shares have lower expenses and, as a result, annual returns would be higher.

The Fund's calendar year-to-date return as of September 30, 2020 was 7.03%. During the period shown in the bar chart, the best performance for a quarter was 3.59% (for the quarter ended March 31, 2019) and the worst performance was -3.08% (for the quarter ended June 30, 2013).

Average Annual Total Returns (for the periods ended December 31, 2019)				
PMC Core Fixed Income Fund - Advisor Class Shares	One Year	Five Years	Ten Years	Since Inception (September 28, 2007)
Return Before Taxes	9.18%	2.59%	3.53%	4.62%
Return After Taxes on Distributions	8.11%	1.72%	2.52%	3.48%
Return After Taxes on Distributions and Sale of Fund Shares	5.44%	1.60%	2.35%	3.25%
PMC Core Fixed Income Fund - Institutional Class Shares				
Return Before Taxes	9.30%	2.61%	3.54%	4.63%
Bloomberg Barclays U.S. Aggregate Bond Index (reflects no deduction for fees, expenses, or taxes)	8.72%	3.05%	3.75%	4.21%

Institutional Class shares of the Fund commenced operations on July 1, 2019. Advisor Class shares of the Fund commenced operations on September 28, 2007.

Performance shown for Institutional Class shares prior to July 1, 2019 reflects the performance of the Advisor Class shares, adjusted to reflect the lower fees and expenses applicable to Institutional Class shares.

After-tax returns are calculated using the historical highest individual federal marginal income tax rates and do not reflect the impact of state and local taxes. Actual after-tax returns depend on an investor's tax situation and may differ from those shown, and after-tax returns are not relevant to investors who hold their Fund shares through tax-deferred or other tax-advantaged arrangements such as 401(k) plans or individual retirement accounts ("IRA"). After tax returns are shown only for Advisor Class shares and after tax returns for Institutional Class shares will vary.

Management

Investment Adviser and Sub-Advisers. Envestnet Asset Management, Inc. is the Fund's investment adviser. Neuberger Berman Investment Advisers LLC ("NBIA") and Schroder Investment Management North America Inc. ("Schroder") serve as the Fund's sub-advisers.

Nathan Kush	Since 2019	Managing Director, NBIA

Purchase and Sale of Fund Shares. You may purchase or redeem shares by mail, PMC Funds, c/o U.S. Bank Global Fund Services, P.O. Box 701, Milwaukee, WI 53201-0701 (for regular mail) or 615 East Michigan Street, 3rd Floor, Milwaukee, WI 53202 (for overnight or express mail), or by telephone at (866) PMC-7338, on any day the New York Stock Exchange ("NYSE") is open for trading. Investors who wish to purchase or redeem Fund shares through a financial intermediary should contact the financial intermediary directly. The minimum initial amount of investment in a Fund and exchanges into a Fund from another Fund in the PMC Funds family is $250 for Advisor Class shares and $1,000 for Institutional Class shares. Subsequent investments in a Fund and exchanges for all types of accounts may be made with a minimum investment of $50.

Tax Information. A Fund's distributions will be taxed as ordinary income or long-term capital gain, unless you are investing through a tax-deferred arrangement, such as a 401(k) plan or an IRA. You may be taxed later upon withdrawal of monies from such tax-deferred or other tax-advantaged arrangements.

Payments to Broker-Dealers and Other Financial Intermediaries. If you purchase Fund shares through a broker-dealer or other financial intermediary (such as a bank), the Fund and its related companies may pay the intermediary for the sale of Fund shares and related services. These payments may create conflicts of interest by influencing the broker-dealer or other intermediary and your salesperson to recommend a Fund over another investment. Ask your salesperson or visit your financial intermediary's website for more information.
